Health Professions

Core Journals, Books, and Databases in the Health Professions.

The following resources are a must for any institution. For a complete list of journals, books, and databases in the Health Professions, visit www.ovid.com.

Journals

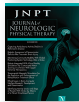

Exercise & Sport Sciences Reviews, Lippincott-Wolters Kluwer
Impact Factor: 4.451, 4/82 (Sport Sciences), 11/83 (Physiology)*

This American College of Sports Medicine® publication provides premier quarterly reviews of the most contemporary scientific, medical, and research-based topics emerging in the field of sports medicine and exercise science. The publication strives to provide the most relevant, topical information to students, professors, clinicians, scientists, and professionals for practical and research applications.

Journal of Chiropractic Medicine, Elsevier

This peer-reviewed journal is devoted to providing a forum for the chiropractic profession to disseminate information dedicated to the developing primary care emphasis within the profession.

Journal of Neurologic Physical Therapy, Lippincott-Wolters Kluwer

Impact Factor: 1.805, 19/65 (Rehabilitation), 123/192 (Clinical Neurology)*

This journal publishes research articles, critical reviews, case reports, and special interest papers that contribute to the development of theory, evidence, and the effective use of physical therapy for individuals with neurologic conditions. Included are articles related but not limited to examination, evaluation, prognosis, intervention, and outcomes that span the continuum from pathophysiology to ability.

Optometry and Vision Science, Lippincott-Wolters Kluwer

Impact Factor: 1.442, 37/56 (Ophthalmology)*

As the most authoritative source for current developments in optometry, physiological optics, and vision science, this journal has served primary eye care practitioners for more than 75 years.

Journal of the American Academy of Physician Assistants, Lippincott-Wolters Kluwer

Published for more than 25 years, JAAPA's mission is to support the ongoing education and advancement of physician assistants (PAs) by publishing current information and research on clinical, health policy, and professional issues.

Books

Clinical Manual of Contact Lenses, Lippincott-Wolters Kluwer
 This manual is a complete, current, and convenient how-to guide to fitting, evaluating, and troubleshooting contact lenses, particularly specialty contact lens designs.

Clinical Prediction Rules: A Physical Therapy Reference Manual, Jones & Bartlett Learning

Doody's Star Rating 5 (Score: 100)

This book offers the first comprehensive look at CPRs as they relate to PT practice. Its format is arranged so that the pertinent information is readily available to influence clinical decision making while also providing sufficient depth.

Handbook For Health Care Research, Jones & Bartlett Learning

Doody's Star Rating 5 (Score: 98)

This is a unique book on scientific research written for healthcare practitioners. Using step-by-step guidelines, the text teaches students and practitioners to implement a research protocol and evaluate the results, even with no experience or formal training in the research process.

Award-winning Support and Consultative Services

- Ovid®'s award-winning support teams help implement tools into your library for the most optimized deployment, promotion, training, configuration, and customization.
- 24/7 support is available in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for the last five years running.
