

Aligned solutions to enhance healthcare quality and reduce variability in care

The UpToDate® and Medi-Span® solutions from Wolters Kluwer help healthcare organizations and professionals align care decisions and reduce unwanted variability. Care teams in over 190 countries make evidence-based decisions with UpToDate, Medi-Span, and UpToDate® Lexidrug™ in their workflow, and empower patients to participate in their care with UpToDate Patient Engagement programs.

UpToDate

Evidence-based clinical decision support and interactive pathways for and by physicians

UpToDate Lexidrug

Drug information reference to help reduce adverse drug events

UpToDate Patient Engagement

Interactive programs to optimize patient outreach and staff resources

Medi-Span

Embedded drug data and screening modules to optimize clinical alerts and decisions

“With our vast footprint of hospitals, clinics and senior living facilities across 26 states, reducing variations in care is a critical part of our efforts to improve outcomes and increase patient safety. The interactive pathways in UpToDate have helped us streamline workflows and harmonize clinical decision-making across care teams and locations.”

Heidi Twedt, MD CMIO at Sanford Health, Sioux Falls, South Dakota

Are you ready to reduce unwanted variability and harmonize care by driving behavioral changes that improve clinical effectiveness?

When you provide aligned, evidence-based solutions to your care teams, they benefit from **exceptional content** and **dedicated customer support**

Ease the adoption of new care approaches

You'll accelerate clinician engagement with content that is trusted, relevant, and used worldwide. Your care teams will have easy access seamlessly in their workflow.

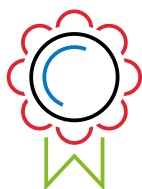

Align stakeholders with a common care playbook

You'll help align decisions across patients, care teams, departments, and organizations with harmonized evidence-based content.

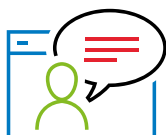

Reinforce evidence-based care

You'll provide ongoing medical education that enhances clinician knowledge, and you'll conduct scalable, personalized outreach to activate patients in their own care.

Exceptional content

More than 7,400 clinical experts — many still active clinicians — follow a rigorous process to synthesize content into the most usable form: as concise, clinically relevant, actionable information. Content is aligned across UpToDate and Medi-Span solutions so that your care teams and patients can work from the same evidence-based playbook.

Dedicated customer support

Our Customer Experience team is there to help you implement and optimize our solutions. We work to establish a continuous feedback loop to your organization so you can see the results you're getting from our tools. We'll show your staff how to apply our solutions to their optimum usefulness to your organization. Our approach is responsive, collaborative, and proactive.

"We need to harmonize care across the entire healthcare system. Medicine has become so fragmented that if you have doctors, nurses, pharmacists, patients and everyone else in the healthcare continuum, all making decisions based on disparate information, you simply can't provide high quality or very effective care. Our goal is to align care teams, help them make good decisions and really empower them to change behavior."

Denise Basow, MD, Former CEO, Clinical Effectiveness, Wolters Kluwer, Health
