

Workpapers

Ensure compliance and maximise efficiency with an integrated solution you can trust.

A comprehensive workpaper solution developed by the CCH Australian Master Tax Guide team and integrated with CCH iFirm and other ledger tools.

Workpapers are an essential tool for all accountants to evaluate and document the financial position of businesses or individuals. CCH Workpapers takes the headache out of workpaper creation, management and compliance. The solution also integrates with CCH iFirm and other ledger tools to reduce manual data entry, improve accuracy and enable workflow efficiencies for your firm.

Why choose Workpapers?

✓ **Ensure compliance**

Our Workpapers are developed and updated annually by the trusted CCH Australian Master Tax Guide team. Enjoy peace of mind that your workpapers are up-to-date and compliant with the latest tax and accounting legislation.

✓ **Enabling a more seamless workflow**

Our Workpapers module integrates into the CCH iFirm practice management and compliance software suite, enabling a more seamless end-to-end compliance workflow. Improve efficiencies by importing and refreshing general ledger balances throughout the workpapers as you go.

✓ **A faster way to work**

Save valuable time with automated journal creation within a workpaper and uploading to your general ledger software with ease. Ensure consistency by importing relevant settings and data from the previous year such as hire purchase and term loan details. Plus, get an instant overview of the status of each workpaper so you easily keep track of progress and reduce time wasted becoming reacquainted with a job.

✓ **Familiar from the start**

Most accountants are very familiar with how to use Microsoft Excel® so we've combined the strengths of Microsoft Excel® with some in-built smarts to create an intelligent and flexible tool that enables accountants to do their job with a tool they are already very familiar with.

✓ **Comprehensive – we have you covered**

With a suite of 51 workpapers, you can be assured we'll have a workpaper template for all the business services your firm offers. Our system is flexible to allow you to easily integrate your own templates too.

✓ **Integrated checklist tool**

Our integrated checklist tool, crafted by tax experts will help you assess and validate whether the preparer has complied with tax regulations, assisting with training and improving accuracy across your firm.

✓ **Integrates with...**

In addition to CCH iFirm, CCH Workpapers also integrates with APS, MYOB AO, MYOB AE, Reckon One and Xero and accessible via subscription through CCH iKnowConnect.
