### **Advisory: Safari & Google Chrome on iOS**

When viewing eSigned PDFs using Safari or Google Chrome on iOS, please note that the graphical representations of the signature and other text injected into the PDF at signature may not be displayed correctly due to Safari and Google Chrome's PDF reader's inability to display Digital Signature markup. If you wish to view the graphical representations, please install the Adobe Acrobat iOS app and copy the eSigned PDF to Adobe Acrobat using the option presented to you in Safari on iOS.
