# Beneficial Ownership Information Report

Fast, Simple and Secure

Effective January 1, 2024, the majority of small businesses must file beneficial ownership information reports to comply with the Corporate Transparency Act.

This new requirement can create risks for companies with limited in-house expertise, limited exposure to FinCEN operations, and a limited ability to safely collect and maintain sensitive personal information.

## Simple, intuitive reporting

Our reporting tool eliminates confusion and decreases the time spent on each report. Secure hosting with two-factor authentication keeps information safe, and built-in automation and validation reduces the risk of misfiling or incorrect filing. You can generate reports efficiently with:

- **Optimized for small businesses** – Smart form guides you through the filing process with simple questions and tool tips to help explain the requested information as you go.
- **Mobile-friendly interface** – Seamlessly access the tool from a computer, mobile device or tablet. You have the ability to take pictures of personal identification from your phone's camera and upload securely.
- **Simple dashboard view** – At-a-glance status of reports is available from creation through completion. You can see status changes reflected as the filed report status changes.
- **Easy collaboration** – You can send unlimited invitations via email or text to beneficial owners for quick form completion.
- **Access to BOI experts** – Help desk with expert support readily available between 8 am – 5 pm ET, with voicemail and callback options outside of business hours.

## Benefits:

Easy to use with minimal to no training

Save hours on each filing

Know sensitive information is kept safe

Reduce errors with online form data validation

## Quick and easy BOI compliance

BizFilings is your solution to meeting the tight filing deadline (90-day window) for all new entities forming in 2024. The streamlined workflow of the intuitive 5-step process shrinks filing times and our secure data hosting ensures sensitive personal information is kept protected.
