

**OTA Online** is a multimedia, online resource providing an easily accessible central source of authoritative content to help keep orthopaedic trauma surgeons and healthcare providers up to date with the latest in orthopaedic trauma.

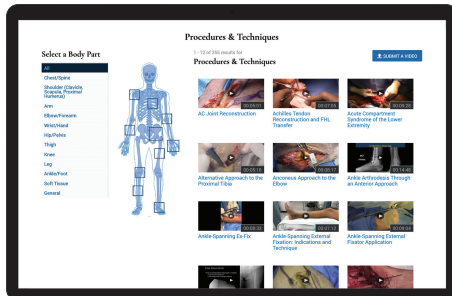

## Full access includes:

- Full text of **Rockwood, Green, and Wilkins Fractures in Adults and Children — New 9th Edition**
- **Video Library** comprising over **250 Procedure & Technique videos** from the **OTA Technique Library and Rockwood and Green** collection and more than **400 OTA Annual Meeting & Conference** video captures — additional videos added on a rolling basis
- Search across current and all archived issues of **Journal of Orthopaedic Trauma** and **OTA International**
- **Industry Partner Channel** content from leading device manufacturers featuring educational and product information
- **New content** and **timely updates** describing the most **important new research in the field**

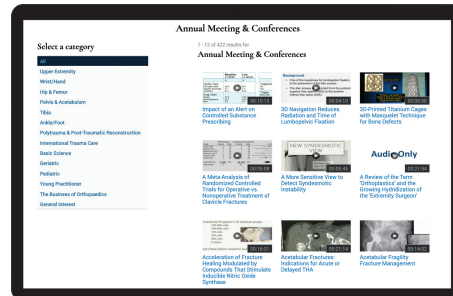

## Features:

- **Ability to download or print** individual textbook chapters to PDF
- **Figure and table view of each chapter** (ability to see the chapter with figs and tables inline, or filter the view to see only the figure, or only the tables, for each chapter)
- **Ability to download a PPT slide** of any textbook figure (clicking the PPT link by any figure embeds that figure into a PPT slide for use in learning material or teaching material — loved by instructors)
- **All content is semantically tagged** to form associations between all the content on the site to allow you to search and discover exactly what you're looking for, as well as semantically relevant related content suggestions for book and video content, related to whatever content you're viewing at the time
- **Powerful search engine:** Full-text search (results based on what you type in), as well as semantic results (synonyms of what you type)
  - Ability to search and filter from the quick search box on every page
  - Powerful search filters on the search results page, allowing you to delve deeper into the content types and sections to get you to exactly what you need
  - Ability to search by title text, description text, author names, content type, site section, etc.
  - Ability to search through *JOT* and *OTA International* journals right from *OTA Online* (results linked to journals platform, where you go to read the article or abstract)

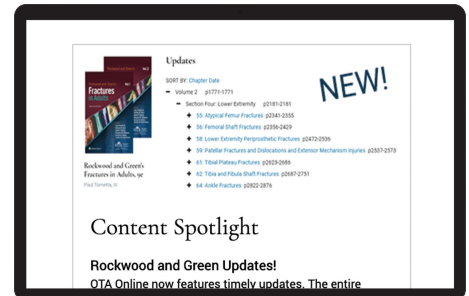

**Content Highlights:**

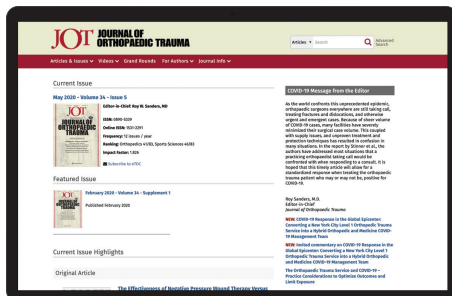

▲ **OTA Procedures & Techniques video library** – over 250 high-quality videos, vetted by the OTA and added on a rolling basis

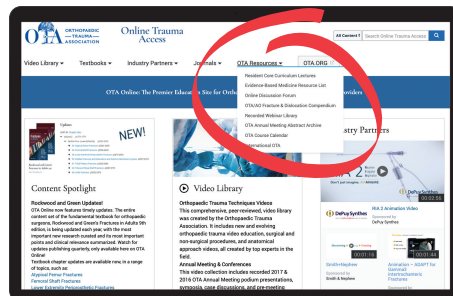

▲ **OTA Annual Meeting & Conferences video library** – over 400 video captures from OTA's Annual Meetings

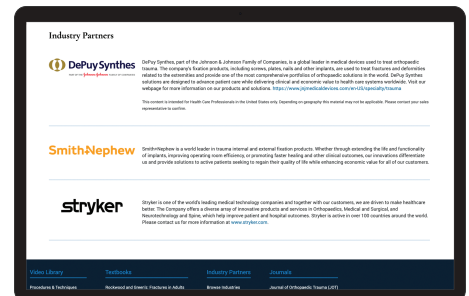

▲ **Rockwood & Green and Rockwood & Wilkins Fracture books** (adult and pediatric), top selling texts in orthopaedic surgery

▲ **Journal of Orthopaedic Trauma and OTA International** – search across current and all archived issues

▲ **Quick access to OTA's top resources**

▲ **Topically relevant procedure, product and technique information** by device manufacturers, giving important information on how to use their devices in orthopaedic trauma surgery cases

**Look for the Rockwood and Green Updates!**

The entire content set of **Rockwood and Green's Fractures in Adults 9th Edition** is updated each year, with the most important new research curated and its most important points and clinical relevance summarized. Watch for updates quarterly!
