

NEJM & NEJM Evidence Package on Ovid®

A new comprehensive medical resource

The *New England Journal of Medicine* (NEJM) is the most trusted, influential source of groundbreaking medical knowledge and clinical best practices, serving to directly shape the future of medicine, inform healthcare policies worldwide, and advance patient care.

As a truly global brand and flagship of NEJM Group, NEJM keeps healthcare professionals at the leading edge of medical knowledge, fosters broad understanding of the most essential advances across all of medicine, and offers engaging and innovative ways to hone clinical skills and expand medical expertise.

Ensure your institution has access to the NEJM & NEJM Evidence Package, now exclusively available on Ovid.

Why NEJM & NEJM Evidence?

Now more than ever, clinicians are challenged on keeping up with the latest evidence-based research to apply to practice.

Plus, leaders and policymakers have immense pressures to translate the latest evidence into policy to improve patient outcomes, generate cost savings, and meet accreditation standards.

While NEJM focuses on critical late-stage trial findings, *NEJM Evidence* offers a different lens on early stage trials along with fresh insights into methodologies.

About NEJM Group

NEJM Group, a division of the Massachusetts Medical Society, offers a collection of journals and content resources with breakthrough research and information that changes practice and improves the delivery of patient care. Resources maintain the highest scientific standards so practitioners, researchers, educators, learners, and medical professionals stay current on the latest discoveries, develop skills and knowledge, implement practical solutions, develop policies, and improve teaching and learning.

NEJM Group resources on the Ovid platform include the *New England Journal of Medicine*, the *NEJM Archive*, *NEJM Evidence*, *NEJM AI* and *NEJM Catalyst Innovations in Care Delivery* journals, as well as *NEJM Clinician*.
