

# Outsource lien management tasks to our professional services experts

Loan data and portfolio management systems are the lifeblood of your operation. But systems that aren't delivering the insights you need, or loan data that isn't up to date, might put your loan portfolio at risk. With multiple business priorities to focus on, you may not have the resources to:

- Stay current with lien filings
- Analyze your data to understand portfolio risk
- Consolidate lien portfolio data from new acquisitions
- Integrate systems to gain workflow efficiencies

Lien Solutions offers a variety of lien management services that address your needs so you can focus on your core business. The subject matter experts in Professional Services can assess your systems and implement solutions for:

- Bulk filings
- Enhanced data analytics
- Jurisdictional data scrubs
- Data aggregation and consolidation
- Establishing connectivity with client technology systems, Lien Solutions' system, and more

## Personalized approach for project success

Our team works seamlessly with you to accomplish your project with minimal disruption and maximum results. You'll benefit from:

- A dedicated, experienced account manager
- Project management adapted to your unique environment and requirements
- Worry-free project execution based on your business needs
- Post-project transition to your team to ensure the new environment can be managed easily and productively

## Advantages of working with our Professional Services team:

**Leverage industry-leading expertise**

Benefit from our nearly four decades of lien management experience

**Minimize risk**

Have confidence your liens are in compliance, properly filed and maintained accurately for all jurisdictions

**Access agile solutions**

Take advantage of our experience and automated tools for fast and cost-efficient implementation

**Improve productivity**

Focus on your core business and let Professional Services complete your consolidation or other projects for better lien portfolio management

## No-hassle implementation

Our expert team understands how to quickly implement a variety of solutions and set-up system-to-system interfaces with minimal disruption to your day-to-day workflow. After implementation, you'll have access to dedicated service support experienced in troubleshooting and committed to delivering you an optimal user experience.
