

JBI Complete Collection

The gold standard in evidence-based practice

Bridging the gap between research and practice to drive better care, better outcomes, and continuous improvement across healthcare systems

Ovid[®]

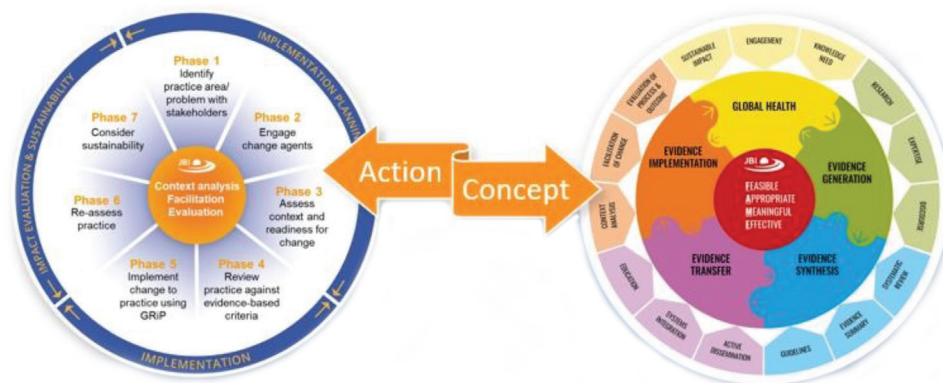

JBI Complete Collection

The JBI Complete Collection is the all-in-one solution that helps healthcare organizations advance quality, safety, and patient outcomes by integrating evidence-based practice at every level – from access to evidence, to critical appraisal, to applying evidence in real-world settings.

- ✓ **Trustworthy decision-making** – Rigorously appraised, pre-vetted evidence for confident, timely clinical decisions
- ✓ **Support for policy & protocol development** – Build standards grounded in the best available evidence.
- ✓ **Enhanced EBP education** – Equip clinicians, students, and teams with essential EBP skills.
- ✓ **Continuous improvement** – Sustain a culture of excellence through evidence-informed practice.

JBIs Approach to Implementation

Ovid®

JBI Best Practice

Turn evidence into action – confidently, efficiently, and effectively

JBI Best Practice provides trusted, evidence-based clinical decision support that is clear, actionable, and up to date. Built on JBI's gold-standard methodology, it offers concise summaries of the latest research and step-by-step procedures that help clinicians make informed, effective care decisions at the point of care. Comprised of:

- **4,000+ JBI Best Practice Evidence Summaries** provide the best available, up-to-date evidence that informs clinical decision making with graded recommendations for practice.
- **700+ JBI Best Practice Procedures** delivers clear, step-by-step guidance for clinical practice.
- **70+ JBI Systematic Review Summaries** provide a summary of the latest systematic reviews, with graded recommendations for practice.

Why JBI Best Practice is unmatched globally

- ✓ Covers 30+ nursing and allied health specialties
- ✓ Updated regularly with the best available evidence
- ✓ Developed by clinicians, for clinicians
- ✓ Empowers faster decisions and safer care
- ✓ Content underpinned by JBI's world-leading, rigorous, and trusted methodology

Ovid®

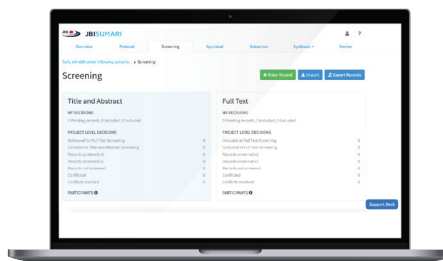

JBI SUMARI

Powering better evidence, one review at a time

JBI SUMARI is a powerful, web-based platform that supports the full systematic review process — from protocol development to final report preparation — all in one intuitive tool. Built on JBI's gold-standard methodology, it helps researchers and clinicians create transparent, reproducible reviews that inform evidence-based decision-making. It helps teams with:

- Protocol development
- Title & abstract screening
- Full-text review
- Critical appraisal
- Data extraction & synthesis
- Report writing.

Why your team needs JBI SUMARI

- ✓ Supports both quantitative and qualitative synthesis
- ✓ Includes built-in critical appraisal tools
- ✓ Enables collaboration and transparent workflows
- ✓ Creates publication-ready reports aligned with *JBI Evidence Synthesis Journal* standards

New in 2026 JBI SUMARI product update

- ✓ Import multiple files from different citation databases at once
- ✓ Track import history for full transparency
- ✓ Undo or remove uploaded files if errors are identified
- ✓ Automatically remove exact duplicate records during import
- ✓ Identify and resolve potential duplicates more efficiently
- ✓ Navigate a more intuitive screening interface
- ✓ Generate an auto-populated PRISMA 2020 flowchart based on real-time decisions

JBI PACES

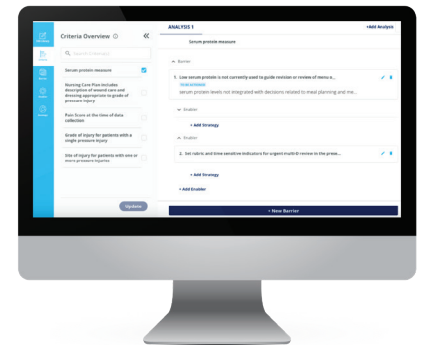

Step-by-step support to turn evidence into everyday practice

JBI PACES is a process-driven, quality improvement software developed by clinicians for clinicians. It provides evidence-based, standardized processes and methods to support safety and quality improvement initiatives that lead to better patient care. It helps teams:

- Protocol development
- Implement evidence-based changes using audit & feedback
- Track and analyze progress through dynamic reporting
- Apply JBI's GRiP (Getting Research into Practice) methodology for structured, sustained change.

Why JBI PACES is different than any other improvement software

- ✓ Integrated audit criteria and customizable workflows
- ✓ Comparative data analysis and visual results
- ✓ Empowers clinicians with ownership of their data and outcomes
- ✓ Closely linked to the *JBI Evidence Implementation Journal*
