

Health Library

Anesthesiology

Why Health Library?

Designed to support foundational learning and clinical practice, Health Library delivers trusted health science education and clinical content to trainees and residents, fellows, program directors, faculty, new clinicians, and students through a single portal — providing interactive online access to essential textbooks, multimedia and imagery, real-life case studies, and quizzes.

Health Library: Anesthesiology provides essential learning and practice material for clinicians, residents, and trainees. Content covers each training rotation and supports safe and effective patient care delivery.

Key Features of Health Library:

- **Account personalization:** Build a unique Health Library experience by saving and organizing content with My Favorites
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation
- **Advanced semantic search:** View results displayed by title, chapter, topic, and type of resource
- **Responsive Design:** Browse content on your computer, tablet, or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, residents, fellows, trainees, and new clinicians control over their progress and motivation to learn
- **Multimedia ancillary content:** Access videos, images, Q & A, case studies, and more

Unique Teaching and Learning Content Package for Trainees, Anesthesiologists, and Instructors

Health Library: Anesthesiology includes:

- Over 25 core textbooks for residents, program directors, and practicing anesthesiologists
- Over 700 videos demonstrating sound, safe, effective techniques
- Covers core rotations, including: Regional Anesthesia, Critical Care, Basic Techniques, and sub specialties such as Obstetric, Pediatric, Cardiothoracic, Neuro, and Pain Management
- More than 2,800 self-assessment questions —with explanations—for identifying areas where learners need the most support
- Key textbooks include: *Anesthesiologist's Manual of Surgical Procedures; Barash, Cullen, and Stoelting's Clinical Anesthesia;* and *Marino's The ICU Book*
