

Health Library

Emergency Medicine

Why Health Library?

Designed to support foundational learning and clinical practice, the Health Library online platform delivers high-quality medical and health science resources and tools through a single portal, empowering learners and instructors alike. Each Health Library collection features trusted interactive content that enhances teaching, streamlines learning, and improves outcomes across every stage of a learning journey.

Health Library: Emergency Medicine offers trainees, residents, and emergency department staff an indispensable content package to better understand key principles and techniques, prepare for rounds and exams, and improve patient outcomes.

Key Features of Health Library:

- **Account personalization:** Build a unique Health Library experience by saving and organizing content with My Favorites
- **Practice questions:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation
- **Advanced semantic search:** View results displayed by title, chapter, topic, and type of resource
- **Responsive design:** Browse content on your computer, tablet, or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, residents, fellows, trainees, and new clinicians control over their progress and motivation to learn
- **Multimedia ancillary content:** Access videos, images, Q&A, case studies, and more

Unique and Timesaving Clinical and Educational Content Package for Trainees, Residents, and Emergency Medicine Practitioners
