

CCH iFirm Accounts Production

Your accounts production tool reimaged in the cloud, enabling you to work quickly, minimise errors, and reduce risk.

What is CCH iFirm Accounts Production?

CCH iFirm Accounts Production is your new cloud accounting software for an integrated compliance workflow. The solution enables you to service sole traders and partnerships, limited companies—FRS 105, FRS 102 (S1A) and FRS 102. This frees up your time to focus on clients with greater needs. We provide a suite of value-add tools to further enhance your offering to your clients.

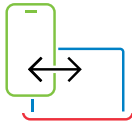

Expect best-in-class quality control when producing accounts, along with ease, efficiency, and accuracy—all through CCH iFirm Accounts Production.

Make your accounts production processes as efficient and profitable as possible using our cloud accounting solution.

Compliance covered with confidence

Fully compliant with FRS 102 for all company sizes, with regular compliance updates issued promptly. CCH iFirm Accounts Production software will give you confidence that you're producing accounts satisfying statutory and legal requirements.

Links with Companies House

Quickly and easily validate standard information available from Companies House.

Quickly customise final accounts

Quickly and efficiently customise final accounts without changing the underlying formats. Make specific modifications for clients who need them, syncing changes across the cloud.

Review and amend accounts on screen

Drill down from the financial accounts to view or amend transactions and the statutory disclosures.

Reduce risk with dynamic validations

Reduce risk with an automated system that flags issues before the accounts are finalised. Risk to both you and your clients is minimised.

AI-driven insights

Easily locate disclosure guidance and get regulatory insights with integrated generative AI functionality.

What are the benefits of CCH iFirm Accounts Production?

- CCH iFirm Accounts Production enables you to **enhance efficiencies** by providing a secure end-to-end solution for your practice.
- Adopting a **cloud accounting solution** means all your employees can access the same data from any system, creating a collaborative and efficient work environment.
- **Remain compliant** through system validations. Risks are reduced through dynamic validations.
- There's **no need to rekey data**, as you can migrate data from CCH Accounts Production, using our migration feature.
- **Gain a competitive edge** by importing data from Trial Balance, to create statements for sole traders, partnerships, and limited companies.
- **Cut the costs** of your accounts production software, as CCH iFirm operates on a pay monthly basis. Pay only for what you need, with unlimited users.

Why should you use CCH iFirm Accounts Production?

With CCH iFirm Accounts Production, you no longer need to worry about the time-consuming and risky process of producing a set of accounts. Our cloud solution is designed to save you time, money, and the risk of compliance errors.

As part of our cloud accounting suite, CCH iFirm, the solution enables you to work collaboratively across your practice. The software encrypts your data for maximum

security, while aiding your workflow through comprehensive automation and API support. Your accounts production solution is taken into one cost effective and centralised system that grows as your practice grows.

CCH Accounts Production has been reimagined in the cloud, with ease of use. CCH iFirm Accounts Production is your scalable and secure compliance solution.
