

JBI Evidence-Based Practice Resources

Driving quality improvement for better patient care.
Better evidence, better decisions, better care.

Do you need timely access to evidence-based information to support patient outcomes and safety?

Clinical evidence-based practice challenges

Evidence-based practice plays a critical role in delivering exceptional patient care. Healthcare administrators and clinicians are in need of timely access to reliable information, helping them navigate complex healthcare scenarios and ensure the delivery of safe, high-quality care.

Improve patient care with 4,500+ trusted evidence-based resources from across 30 healthcare specialities.

How JBI resources can help

- One of the world's leading providers of evidence-based information—available exclusively on Ovid®
- Summarised research in a format that is easy to locate, understand, and distribute
- Diverse range of resources that go beyond therapeutic medical interventions – to look at patient and caregiver experiences, report on costs, diagnostics, and prognostics
- Rapid access to trusted, rigorously developed evidence and clinical guidance that improves the safety and quality of care

Developed by clinicians for clinicians, JBI's evidence-based practice resources provide rapid access to trustworthy, clinical decision support at the point of care. We provide better evidence that empowers clinicians and healthcare administrators to make informed, confident decisions for better patient care.

“Using these guidelines to educate our nurses empowered them by giving them the knowledge to work and collaborate with us to check the evidence base and establish the assessment and care standards.”

- Yong-Chuan Chen, NICU Head Nurse, Taichung Veterans General Hospital, Taichung, Taiwan

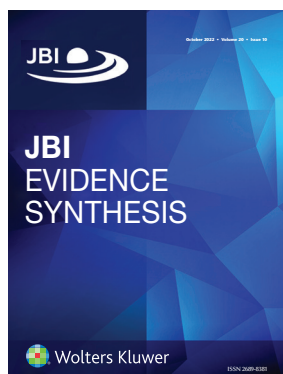

Ovid®

JBİ Best Practice

JBİ Best Practice content is evidence-based, developed following JBİ's world-leading, rigorous methodology, including graded best-practice recommendations. Rapidly access **4,500+** up-to-date Evidence Summaries, Recommended Practices, and Best Practice Information Sheets across 30+ healthcare specialties.

- **4,000+** Evidence Summaries provide the best available evidence for a clinical topic, including graded best-practice recommendations to inform clinical decision making
- **700+** Recommended Practices provide clear, step-by-step guidance for clinical practice across a wide range of evidence-based procedures
- **70+** Best Practice Information Sheets are engaging, high-quality 4-page summaries of a JBİ Systematic Review that include infographics and recommendations for practice

JBİ Evidence Synthesis

Evidence to inform clinical practice

An international peer-reviewed, online journal that publishes rigorous evidence syntheses relevant to a range of healthcare contexts and health conditions. The premier channel for diverse systematic reviews that move beyond inclusion of RCTs and experimental studies, providing the best available evidence

The journal publishes systematic and scoping review protocols, diverse types of systematic reviews, and scoping reviews covering multi-disciplinary healthcare related topics that follow rigorous methodology and methods developed by JBİ. Fully indexed in Embase®, MEDLINE®, and CINAHL®

JBİ Endorsement offers members the opportunity to work together with a truly global consortium of experts in evidence-based healthcare education, research and implementation.

JBİ Evidence Implementation

Translating research into practice

A theory informed, clinically relevant, quarterly journal that publishes case studies and papers from diverse clinical, cultural, and socioeconomic contexts that address the science and practice of evidence implementation into healthcare policy and healthcare practice

The journal's evidence has widespread relevance and applicability with topics covering ward/unit level change projects right across the spectrum of healthcare services offered globally

Award-winning support and consultative services

Ovid's award-winning support teams help implement tools into your library for the most optimised deployment, promotion, training, configuration, and customisation.

24/7 support is available in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for the last five years running.

Find out how JBİ Evidence-Based Practice Resources can support clinicians in point-of-care decision-making and administrators to inform health policy and practice.
