## Cardiology on Ovid

### Core Journals, Books, and Databases

Visit [ovid.com/cardiology](http://ovid.com/cardiology) for a complete list of resources in Cardiology.

#### Journals

##### *Circulation*, Lippincott-Wolters Kluwer

A Journal of the American Heart Association

**Impact Factor 17.047, 2/124 (Cardiac & Cardiovascular Systems); 1/63 (Peripheral Vascular Disease)\***

*Circulation* publishes the most important papers from across the world of cardiology every week. Publishing a combination of basic, translational, clinical, and population research, the journal publishes the most authoritative articles and details the implications for application in practice to improve patient outcomes.

##### *Circulation Research*, Lippincott-Wolters Kluwer

A Journal of the American Heart Association

**Impact Factor 11.551, 4/124 (Cardiac & Cardiovascular Systems); 3/70 (Hematology); 2/63 (Peripheral Vascular Disease)\***

Each biweekly issue of *Circulation Research* explores some of the most revolutionary research in areas like cellular therapy/stem cells, microRNA biology, development, proteomics, translational research, and more.

##### *European Heart Journal*, Oxford University Press

**Impact Factor 15.064, 3/124 (Cardiac & Cardiovascular Systems)\***

Aims to publish the highest quality material, both clinical and scientific, on all aspects of Cardiovascular Medicine. It includes articles related to research findings, technical evaluations, and reviews.

##### *Chest*, Elsevier

A journal of the American College of Chest Physicians

**Impact Factor: 5.94, 6/58 (Respiratory System), 5/33 (Critical Care Medicine)**

Each month *Chest* features cutting edge clinical investigations in the multidisciplinary specialties of chest medicine, such as pulmonology, cardiology, thoracic surgery, transplantation, sleep and breathing, airways disease, and more.

**Cost-effective journal collections are also available!**

#### Books

##### *Feigenbaum's Echocardiography*, Lippincott-Wolters Kluwer

**Doody's Star Rating®: 5 stars, score: 100; Doody's Core Titles: 2.6 – Cardiology**

This thoroughly revised seventh edition reflects recent changes in the technology and clinical use of echocardiography.

##### *Hypertension: Atlas of Investigation and Management*, Clinical Publishing

**Doody's Star Rating®: 5 stars, score: 100**

This is the first volume of a new series of titles, each of which provides readers with a concise and carefully-structured pictorial reference to the clinical manifestations of disease and the means by which the diagnosis may be confirmed.

##### *Kaplan's Clinical Hypertension*, Lippincott-Wolters Kluwer

**Doody's Star Rating®: 4 stars, score: 92; Doody's Core Titles: 2.53 (Cardiology), 2.13 (Coronary Care)**

This best-selling clinical reference by a world-renowned authority on hypertension was listed as the #1 reference book for hypertension by the American Society for Hypertension in 2006.

##### *Physical Exam of the Heart and Circulation*, People's Medical Publishing House—USA LTD

**Doody's Star Rating®: 5 stars, score**

In the fourth edition of this outstanding resource, emphasis is placed on physical examination, rather than physical diagnosis. The author's objective is to describe the physical signs and how they are elicited.

**PLUS! LWW Cardiology Book Collection of over 100 premium books.**

#### Award-winning Support and Consultative Services

- Ovid's award-winning support teams help implement tools into your library for the most optimized deployment, promotion, training, configuration, and customization.
- 24/7 support is available in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for the last five years running.

#### Databases

##### *MEDLINE*®, National Library of Medicine

The full MEDLINE® for the Ovid platform is updated daily and includes access to Ovid MEDLINE In-Process & Other Non-Indexed Citations, Ovid's collection of non-indexed NLM records, both the in-process and PubMed-not-MEDLINE records.

##### *Embase*®, Elsevier

One of the leading sources of pharmacological and biomedical literature, Embase includes nearly 29 million records drawn from over 8,500 journals published in 90 countries. It includes powerful indexing, seamless mapping to controlled vocabulary terms, and more.

##### *Visible Body Heart & Circulatory Premium*, Argosy Publishing

This interactive 3D Atlas is a deep dive into the heart and circulatory system for healthcare professionals and students to use for learning, reference and patient education.
