# AI is changing nursing education:

## Trust CoursePoint+ Nursing Tutor in your classroom

**CoursePoint+ Nursing Tutor** empowers students to become more efficient, confident learners, while **Nursing Tutor Usage Insights** help faculty pinpoint learning gaps and optimize classroom teaching.

**Expert AI is built on 3 trustworthy sources:**  
Lippincott eBooks, the *Made Incredibly Easy* series, and Lippincott Advisor.

**100,000+**  
Nursing Tutor queries in the first month.

**Faculty can view Top 5 most referenced**  
chapters students are searching.

**Faculty can access Top 4 Key Insights:**  
Topics engaged, open-ended questions, topics quizzed, topics answered incorrectly.

**Early adopters have spoken, and they like what they see.**

Discover diverse ways students and faculty are using Nursing Tutor to optimize learning.

### Create an outline or study guide

**TIP:** Before class, students can ask Nursing Tutor to create a reading guide to prepare for the week's material; after class, they can ask it to create a study guide to prepare for exams.

**1** *"With seven chapters to read each week on top of clinicals, class, assignments, and working full time, a resource like Nursing Tutor makes everything more doable."*  
- Second-year BSN Student

### Summarize a chapter or concept

**TIP:** Students can ask Nursing Tutor to create a clear, concise concept summary in the format and language (English or Spanish) in which they learn best.

**2** *"The Nursing Tutor summaries are amazing. It takes huge concepts like nursing theories, roles, and evidence-based practice and makes them feel manageable."*  
- Second-year BSN Student

### Generate practice quiz questions with rationales

**TIP:** Students can regularly click on the "Quiz Me" prompt to double-check comprehension and self-remediate as needed.

**3** *"I like that the provided prompts, like "Quiz Me," are pertinent and help students know where to focus their thinking."*  
- Nursing Instructor

### Use secondary prompts and follow-up questions

**TIP:** Expand critical thinking skills by using the tutor's expert-educator guided secondary prompts and follow-up questions to enrich class discussions.

**4** *"I really, really like the thought-provoking questions Nursing Tutor gives my students. It feels like a real tutor — unlike other tools I've seen, it actually asks students questions that get them to think critically."*  
- Assistant Professor and Nursing Education Consultant
