

American Heart Association/American Stroke Association (AHA/ASA) Journals on Ovid®

Ovid continues to exclusively offer the top-ranked, peer-reviewed journals from the American Heart Association/American Stroke Association (AHA/ASA). Ovid offers 11 AHA/ASA journals published by Lippincott providing unparalleled depth of research in the fields of cardiovascular and cerebrovascular research.

**Exclusive Access to
AHA/ASA Journals
Published by Lippincott**

With an Impact Factor of 19.309, *Circulation* is ranked 3rd in the Cardiac & Cardiovascular Systems subject category. Five of the AHA journals are ranked within the Top 15 by Impact Factor in this subject category. Five AHA journals are the Top 5 by Impact Factor in the Peripheral Vascular Disease subject category.*

- Offer users seamless access to AHA/ASA premium full-text journals.
- AHA/ASA titles are available in cost-effective collections.
- Search Lippincott published AHA/ASA journals together with other subscribed resources simultaneously.
- Keep up with the latest research with automatic delivery of electronic tables of contents via email or RSS feed.
- Time-saving workflow tools—such as email jumpstarts, inline abstracts, and search result annotations—help you pinpoint, access, and mark specific search results, articles, and reviews.

Arteriosclerosis, Thrombosis, and Vascular Biology

Impact Factor 6.607, 6/70 (Hematology); 4/63 (Peripheral Vascular Disease)*

Published monthly, **ATVB** is the forum for publication of basic, translational, clinical, and population research in the area of arteriosclerosis, thrombosis, and vascular biology.

Circulation

Impact Factor 19.309, 3/128 (Cardiac & Cardiovascular Systems); 1/63 (Peripheral Vascular Disease)*

Circulation publishes the most important papers from across the world of cardiology every week. Publishing a combination of basic, translational, clinical, and population research, the journal provides the most authoritative articles and details the implications for clinical application to improve patient outcomes.

Circulation Research

Impact Factor 13.965, 5/128 (Cardiac & Cardiovascular Systems); 1/70 (Hematology); 2/63 (Peripheral Vascular Disease)*

Each biweekly issue of **Circulation Research** explores some of the most revolutionary research from areas like cellular therapy/stem cells, microRNA biology, development, proteomics, translational research, and more.

Hypertension

Impact Factor 6.857, 3/63 (Peripheral Vascular Disease)*

Each monthly issue of **Hypertension** delivers the best high blood pressure-related articles focused on basic science, clinical treatment, and prevention of hypertension and related cardiovascular, metabolic, and renal diseases. These are the papers which will prove their significance for years to come.

Stroke

Impact Factor 6.032, 16/197 (Clinical Neurology); 5/63 (Peripheral Vascular Disease)*

Each monthly issue of **Stroke** represents the best in the field—original contributions, research letters, case reports, short communications, advances, comments, opinions, reviews, controversies, emerging therapies, topical reviews, and Cochrane Corner.

American Heart Association/American Stroke Association (AHA/ASA)

Circulation: Arrhythmia and Electrophysiology

Impact Factor 5.410, 22/128 (Cardiac & Cardiovascular Systems)*

This monthly journal publishes high-quality, clinically relevant articles focusing on advances in the understanding of the pathophysiology, diagnosis, and treatment of cardiac arrhythmias. The journal reflects the rapid evolution of cardiac electrophysiology as a discipline in its own right, and presents critical new research on topics related to clinical applications such as devices for arrhythmia management, catheter ablation, the pathophysiology of the arrhythmia substrate, and novel biologic therapies.

Circulation: Cardiovascular Genetics

Impact Factor 4.743, 30/128 (Cardiac & Cardiovascular Systems); 26/167 (Genetics & Heredity)*

This bimonthly journal publishes articles related to research in cardiovascular genetics, genomics, and systems biology.

Circulation: Cardiovascular Imaging

Impact Factor 6.803, 14/128 (Cardiac & Cardiovascular Systems); 4/126 (Radiology, Nuclear Medicine & Medical Imaging)*

This monthly journal publishes high-quality, patient-centric articles focusing on observational studies, clinical trials, and advances in applied (translational) research featuring innovative, multimodality approaches to diagnosis and risk stratifications of cardiovascular disease.

Circulation: Cardiovascular Interventions

Impact Factor 7.198, 10/128 (Cardiac & Cardiovascular Systems)*

This monthly journal focuses on interventional techniques pertaining to coronary artery disease, structural heart disease, and vascular disease, with priority placed on original research and on randomized trials and large registry studies that will significantly advance patient outcomes. In addition, pharmacological, diagnostic, and pathophysiological aspects of interventional cardiology are given special attention.

Circulation: Cardiovascular Quality and Outcomes

Impact Factor 4.524, 32/128 (Cardiac & Cardiovascular Systems)*

This monthly journal publishes articles related to improving cardiovascular health and healthcare. Content includes original research, reviews, and case studies relevant to clinical decision-making and healthcare policy. The journal is dedicated to furthering the mission of promoting safe, effective, efficient, equitable, timely, and patient-centered care.

Circulation: Heart Failure

Impact Factor 6.372, 15/128 (Cardiac & Cardiovascular Systems)*

This monthly journal is the resource for critical, high-quality, clinically relevant articles focusing on observational studies, clinical trials, epidemiology, and advances in applied (translational) research related to heart failure. Readers can rely on the coverage of topics such as new drug and device therapies, as well as papers illuminating the pathophysiology in human and translational models.

AHA/ASA Journal Collections

Exclusively on Ovid, AHA/ASA journals are available in cost-effective collections. Select the six *Circulation*-specialty journals or get all 11 highly cited journals publishing across the full spectrum of peer-reviewed cardiovascular and cerebrovascular research.

Award-winning Support and Consultative Services

- Ovid's award-winning support teams help implement tools into your library for the most optimized deployment, promotion, training, configuration, and customization.
- 24/7 support is available in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for the last five years running.

Ovid Transforming Research into Results.

Ovid is your complete online research solution, offering a single online destination where you can search, discover, and manage the critical information you need to streamline your research productivity and your work.

- Work the way you want to work with a variety of search modes and customizable work productivity and content alerting tools.
- Save and manage critical research findings and documents in a dedicated work area—My Projects.
- Search all Ovid resources—books, journals, and databases—simultaneously with just one query.
