

Flag fatigue ends here. Ushering in a new era of agentic invoice review action.

End the flags. Enforce billing guidelines. Automated line-item adjustments with precision and control.

Higher invoice volume, increasing guideline complexity, and greater spend scrutiny – it's the modern reality of legal ops and traditional legal bill review processes aren't keeping up.

That's why Invoice Review Agent converts billing guidelines into action, not more flags.

How it works

Invoice Review Agent applies adjustments and exceptions at the line-item level, driven by your unique billing guidelines. Our approach keeps you in full strategic control of agentic action, designed for rapid adoption to minimize or completely remove manual bill review processes by replacing flags with actions:

- Natural language preferences keep legal ops in control of strategic spend management.
- Agentic action recommends or automatically adjusts to reduce or remove manual review.
- Embedded in legal workflows to ensure adoption without friction.
- Guideline-level citations provide full transparency and explainability for defensible decisions.
- AI-powered invoice summarization provides real-time insight into work product and controls to review or reverse adjustment.

Benefits of Invoice Review Agent

Invoice Review Agent checks for compliance and takes controlled, automated action to scale bill review with confident precision.

- 1 Delivers measurable savings impact:** Convert billing guidelines into action by recommending or applying line-item adjustments for consistent, defensible legal spend reduction.
- 2 Transforms from AI insight to action:** Move beyond summaries and alerts to automated action for repeatable compliance decisions at scale.
- 3 Eliminate flag fatigue:** Replace high-volume alerts with action that results in real financial impact, not more manual work.
- 4 Scale compliance without added headcount:** Review more invoices, faster and consistently, finally allowing you to truly do more with less.
- 5 Elevate human review:** Free reviewers to focus on high-judgment analysis, strategic exceptions, and oversight, not repetitive line-item cleanup.
- 6 Apply guidelines consistently and defensibly:** Uniform application of guidelines across invoices and matters, producing clear, concise adjustments tied directly to written policy.
- 7 Accelerate the invoice-to-payment timeline:** Resolve routine compliance issues earlier, reducing review bottlenecks, shortening payment cycles, and improving critical relationships.
- 8 Confidently handle "gray area" billing:** Apply guideline logic consistently across nuanced and complex billing scenarios, reducing variability across reviewers and firms.

Real-world results

In real-world use tested at enterprise scale, Invoice Review Agent demonstrated strong alignment with human bill review, based on the standards of highly experienced legal bill review experts.

- Achieved 98% alignment with human reviewer decisions.
- Reviewed invoice line items at real-world scale, with 100% of line items evaluated consistently, ensuring complete coverage.

Built for modern legal bill review

Wolters Kluwer applies AI and domain expertise, data, and responsible development for extreme accuracy, accelerated adoption, and proven results.

- Powered by \$200B+ in invoice-backed legal spend data, providing a deep foundation for accuracy and consistency
- Trained by legal operations experts with decades of bill review experience
- Developed and maintained by 100+ data scientists, 400+ compliance experts, and 500+ process experts, combining advanced AI development with real-world legal billing expertise

Take invoice review
further without
losing control.
