Let RASi Guide You Through Business Licensing

Obtaining and maintaining business licenses is a required step for businesses in almost all industries. Each jurisdiction has its own licensing requirements and the process to obtain or renew a license can vary greatly. RASi can assist with your business licensing needs and take this time-consuming process off your hands.

License Research

Whether you need a business license varies based on your specific business activity and the jurisdiction in which you are operating.

Our licensing team can:

- Determine the business licenses your business needs to operate
- Help compile the license applications and filing instructions
- Identify supporting documents, required application fees, and any recurring costs

License Filings - pricing varies by license type

Whether your business is locally owned and operated or nationwide, we can prepare and process your license applications.

Our licensing team can:

- Help you apply for, obtain, and maintain all required business licenses
- Guide you through the application process and help determine the supporting documents required
- Complete and submit the application packets to the licensing authority
- Communicate with the licensing authority until the license is issued

License Assessment

Unsure of what licenses your business currently holds or the status of each? We can compile a comprehensive report that will identify the licenses the business should hold, verify the current status of licenses already held, and provide instructions on how to obtain the licenses your business is currently missing.

Our licensing team will:

- Research all licenses your business requires from the federal, state, county, and local levels
- Verify license status and current expiration dates
- Identify gaps in your license portfolio and provide instructions on how to fill those gaps

License Compliance - pricing based on portfolio size

With CorpliancePLUS®, you can view and manage your business registrations and licenses in one accessible place.

You can:

- View all current license details and expiration dates
- Review license applications and print copies of license documents
- Produce custom reporting for easier license portfolio management

RASi's Business License Service Department offers a complete solution. Our team of compliance experts will do all the legwork when it comes to researching, filing, and renewing business licenses.
