Smarter, faster business license research

Business licensing is more complicated than it needs to be.

Across the country, many jurisdictions still rely on manual, high-touch workflows. Requirements vary by location and level of government, and manual input often introduces errors, inconsistencies, and ambiguity. For partners and their customers, this increases the risk of noncompliance and can turn license research into a process that takes days.

## A new way to deliver license research

Now there's a smarter, faster way to deliver business license research: **CT License Intelligence** pairs AI-powered research with CT's proprietary knowledge bank that delivers faster, more reliable answers for customers without adding complexity for partners.

CT License Intelligence delivers convenience for customers and visibility for partners:

Results in  
seconds instead  
of 3-5 days

A comprehensive  
report with  
required licenses

Expert-reviewed,  
CT-backed workflows for  
complex applications/  
use cases

Seamless  
ordering for  
filing services

A wealth of metrics  
on customer activity

Unmatched  
expertise covering

**300+**  
business license types

Including

**75,000**  
jurisdictions in the U.S.

## A dashboard built for partners

The **Partner Dashboard** puts data on customer licensing needs at the partner's fingertips to improve outcomes and identify upsell opportunities:

- Order and filing activity
- Status and fulfillment tracking
- Invoicing visibility
- Industry-level insights across customer activity

CT Corporation

# How CT License Intelligence works

Connected via APIs, CT License Intelligence is embedded directly into a partner's website, offering a seamless, partner-branded experience for customers.

Customers answer a short set of questions about their business and location. CT License Intelligence identifies required licenses in seconds, across jurisdictions. Customers can order filings directly from the report, and when questions arise, supportive workflows help ensure accuracy and consistency.
