

# Health Library

## Occupational Therapy

### Why Health Libraries?

Designed to support foundational learning and clinical practice, Health Libraries deliver trusted health science education and clinical content to students, trainees, fellows, program directors, faculty, and new clinicians through a single portal – providing interactive online access to a combination of essential book content, multimedia & imagery, real-life case studies, and quizzes.

**Health Library: Occupational Therapy** brings together an assortment of resources covering core topics for any student, trainee, instructor, program director, or practicing occupational therapist. Ideal as part of a curriculum or self-study, the library is designed to help acquire meaningful clinical experience and prepare for exams and professional practice.

### Key Features of Health Libraries:

A single portal to foundational and basic sciences resources, as well as rich multimedia ancillaries for teaching, learning, and practice.

- **Account personalization:** Save content to your own MyHealthLibrary, access Health Library from any computer, and set up email alerts for when new content is added
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation
- **Advanced semantic search:** View results displayed by title, chapter, topic, and/or type of resource
- **Responsive Design:** Browse content on your computer, tablet or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, trainees, and new clinicians control over their progress and motivation to learn
- **Sharing:** Much content, including technical videos, can be shared with colleagues and classmates
- **Multimedia ancillary content:** Access videos, images, assessment questions, case studies, and more
- **Instructor resources:** PowerPoint presentations, lecture notes, test banks, and case studies accessible from directly within each Health Library and easy incorporation into courses; chapter and figure conversion guides help migrate from one book edition to the next, ensuring content currency

Textbook/Multimedia  
Resources for Teaching,  
Learning, and Practice

### Health Library Occupational Therapy Include:

- 19 core textbooks for the OT student, trainee, and new practitioner
- Over 200 videos covering orthosis, physical dysfunction, and foundational knowledge
- Over 1,000 self-assessment questions for identifying weak areas
- Dozens of case studies depicting real-world clinical encounters
- Content updated regularly!
- Key textbooks that include *Willard & Spackman's Occupational Therapy*, *Occupational Therapy for Physical Dysfunction*, and *Kielhofner's Model of Human Occupation: Theory and Application*.
