Bates' Visual Guide to Physical Examination®

Prepare students and new clinicians for successful patient encounters

Bates' Visual Guide to Physical Examination® provides students and new clinicians with a vast video library to learn and hone clinical skills. Based on the bestselling textbook *Bates' Guide to Physical Examination and History Taking*, this online guide maintains the evidence-based origins of the book and provides careful attention to clinical accuracy, and to a diverse range of patient types.

Broken into three sections — Physical Examination, OSCE Clinical Skills, and Communication and Interpersonal Skills — **Bates' Visual Guide to Physical Examination®** is the perfect online reference for any institution's assessment or clinical medicine courses within medical, nursing, physician assistant, physical or occupational therapy, or pharmacy programs. In addition to providing students with the training they need, it can also support new or experienced clinicians looking to hone their skills.

Why Bates' Visual Guide to Physical Examination®?

- Supports teaching and learning objectives with hours of narrated and closed captioned videos
- Prepares students for the patient encounter and USMLE, OSCEs, and board exams
- Allows students independent, frequent viewing, and testing of their clinical reasoning skills
- Provides a resource for practitioners to learn new approaches for building rapport and trust with patients as well as review their understanding of examination techniques
- Creates direct paths to videos from library catalog or course syllabus; enables downloading of PDF transcripts for use in teaching guides

Key features:

- **NEW!** Two hours of new content, addressing customer requests for more coverage of pathology and special maneuvers, as well as physical examination of pregnant patients
- **NEW!** An increased commitment to diversity and inclusion, showing a more diverse range of patients
- **NEW!** A more consistent, streamlined, and modern presentation of the Physical Examination videos, for better student engagement and efficient learning
- **NEW!** A whole new platform with a cleaner, more modern interface, improved navigation, and progressive web app for mobile use
- 27 communication and interpersonal skills videos that help support diversity, equity, and inclusion across healthcare
- 21 end-to-end physical assessment interactive learning videos
- 15 OSCE-style videos for clinical reasoning
- Ideal for patient encounter and board exam preparation
- Nearly 15 hours of videos with clear narration and captions
- Sections available for individual purchase to suit your institution's needs and budget

Physical examination videos

These physical assessment videos present a patient-first approach to the physical exam featuring a range of diverse patient profiles from adult to infant. Additionally, each volume consists of multiple videos covering topics such as approach to patient, anatomy review, examination, pathology and special maneuvers.

Communication and interpersonal skills videos

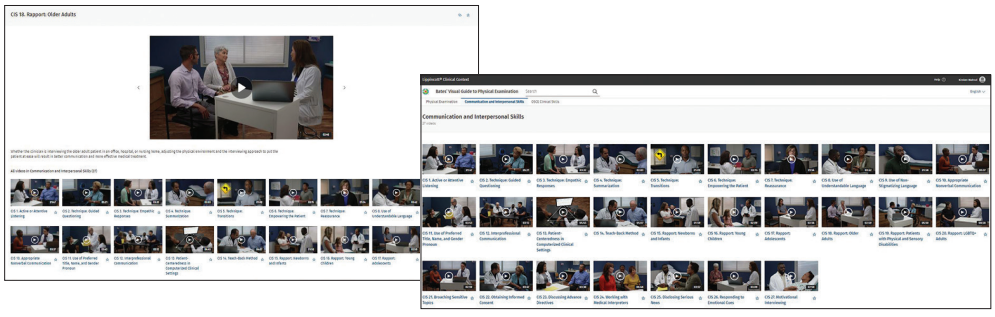

These instructional videos present the fundamental interpersonal and communication techniques necessary for effective clinical encounters. Students and new clinicians learn approaches for communicating with diverse populations throughout the life cycle. Building rapport is emphasized throughout. Bulleted text boxes highlight key points and review information to support learning and retention.

1. *Technique: Active or Attentive Listening*
2. *Technique: Guided Questioning*
3. *Technique: Empathic Responses*
4. *Technique: Summarization*
5. *Technique: Transitions*

7. *Technique: Reassurance*
8. *Use of Understandable Language*
9. *Use of Non-Stigmatizing Language*
10. *Appropriate Nonverbal Communication*
11. *Use of Preferred Title, Name, and Gender Pronoun*
12. *Interprofessional Communication*
13. *Patient-Centeredness in Computerized Clinical Settings*
14. *Teach-Back Method*
15. *Rapport: Newborns and Infants*
16. *Rapport: Young Children*
17. *Rapport: Adolescents*
18. *Rapport: Older Adults*
19. *Rapport: Patients with Physical and Sensory Disabilities*
20. *Rapport: LGBTQIA+ Adults*
21. *Broaching Sensitive Topics*
22. *Obtaining Informed Consent*
23. *Discussing Advance Directives*
24. *Working with Medical Interpreters*
25. *Disclosing Serious News*
26. *Responding to Emotional Cues*
27. *Motivational Interviewing*

OSCE clinical skills videos

These 15 videos are designed to help prepare students for Objective Structured Clinical Examinations (OSCEs) by testing their clinical reasoning skills covering typical/common complaints, including chest pain, falls, child asthma, shoulder pain, and more.

Each video provides a clinical encounter observation — giving students the opportunity to develop an assessment, or differential diagnosis, and provide an appropriate diagnostic workup.

Award-winning support and consultative services

Ovid's award-winning support teams help implement tools into your library for the most optimized deployment, promotion, training, configuration, and customization.

Support is available 24/7 in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for over a decade.
