

Health Library

Internal Medicine

Why Health Library?

Designed to support foundational learning and clinical practice, Health Library delivers trusted health science education and clinical content to trainees and residents, fellows, program directors, faculty, new clinicians, and students through a single portal — providing interactive online access to essential textbooks, multimedia and imagery, real-life case studies, and quizzes.

Health Library: Internal Medicine offers a carefully curated mix of content, digital media, and multimedia tools for practicing clinicians and residents to apply knowledge during rounds and patient interactions, and study for Board certification.

Key Features of Health Library:

- **Account personalization:** Build a unique Health Library experience by saving and organizing content with My Favorites
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation (subscription model only)
- **Advanced semantic search:** View results displayed by title, chapter, topic, and type of resource
- **Responsive Design:** Browse content on your computer, tablet, or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, residents, fellows, trainees, and new clinicians control over their progress and motivation to learn
- **Multimedia ancillary content:** Access videos, images, Q & A, case studies, and more

Essential Clinical and Educational Content for Internal Medicine Residents, Trainees, and Physicians

Health Library: Internal Medicine includes:

- Over 35 textbooks, review books, and quick-reference guides
- Over 50 clinical and procedural videos covering key topics; includes video tutorials from residents at the Washington University School of Medicine
- Over 2,500 self-assessment questions
- Sophisticated semantic search targeted to the key diagnoses residents encounter in their intern year
- Key titles:
Artificial Intelligence for Improved Patient Outcomes,
Washington Manual of Primary Care Medicine,
Sapira's Art & Science of Bedside Diagnosis, and
Neinstein's Adolescent and Young Adult Health Care
