According to the World Health Organization, more than 235 million people worldwide suffer from asthma and 64 million struggle with chronic obstructive pulmonary disease (COPD). In fact, 3 million of those afflicted with COPD died in 2005. Healthcare professionals involved with the treatment and care of patients with respiratory diseases clearly need access to the latest research and most effective clinical techniques.

Fortunately, Ovid® offers a single, easy-to-use access point for more than 100 full-text and bibliographic resources published by some of the world's leading authorities in medicine and healthcare.

This comprehensive content selection is comprised of 81 books, 20 journals, 2 databases, as well as an ebook collection that's only available through Ovid. And keep in mind that Ovid makes information searching fast and easy. Whether you're a pulmonologist in a clinical setting, a researcher, educator, or student, you'll have the critical information you need at your fingertips.
