LegalVIEW® BillAnalyzer: The leader for AI-powered legal bill review

ELM Solutions

LegalVIEW BillAnalyzer combines artificial intelligence, and human legal expertise to help companies transform and optimize their end-to-end legal bill review process. Clients who take advantage of the award-winning managed service experience a reduction of legal spend as high as 10% compared to existing invoice review processes. BillAnalyzer leverages LegalVIEW®, the world's largest database with \$180B+ of legal performance benchmark and invoice data, to power AI-enhanced legal bill review. Implementing new bill review services into your organization can be challenging, but it doesn't have to be. Artificial Intelligence that leverages machine learning has significantly evolved over the past few years and has become highly adopted in the legal industry.

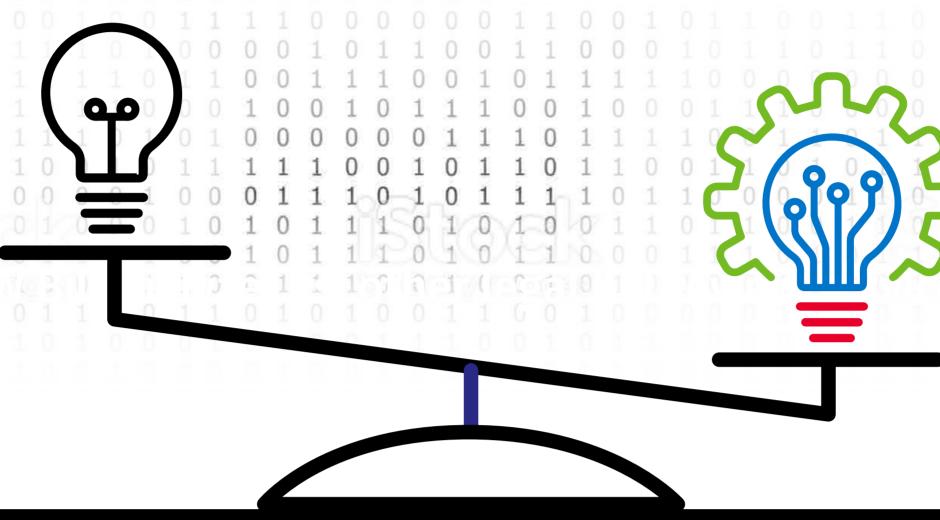

LegalVIEW BillAnalyzer vs. other legal bill review services

Many vendors claim to have an advanced and innovative AI model; however, their models are rule engines and optical character recognition based on client-specific data, often producing false-positive billing outcomes.

depth AI and machine learning algorithms that use natural language processing to learn from the market and a client's guidelines to align with their goals and produce desired legal billing behavior patterns.

BillAnalyzer allows our data scientists to build in-

Billing violations captured by the BillAnalyzer AI model

rates for non-attorney tasks)-Partners and Associates are billing for paralegal work

Appropriate level of

personnel (e.g., attorney

Several tasks are aggregated together and billed as one

Block billing

line item without allotting time

Research time/Travel time

Non-billable research time or

time to get from the office to

the courthouse are billed

Paralegal general

General administrative tasks

were billed for a paralegal

Out of pattern billing

Item contains inconsistent

billing rates for specific tasks

before motions are approved and there is no approval associated with this line item

Prior approval motions

Prior approvals are required

similar matters by different timekeepers

Vague billing

A line item is not descriptive

Duplicate-sprinkle billing-

Similar line items are billed in

enough and does not have

enough detail about what was billed

Compliance and savings by

practice area/law firm

Aggregates savings and compliance by practice area or law firm

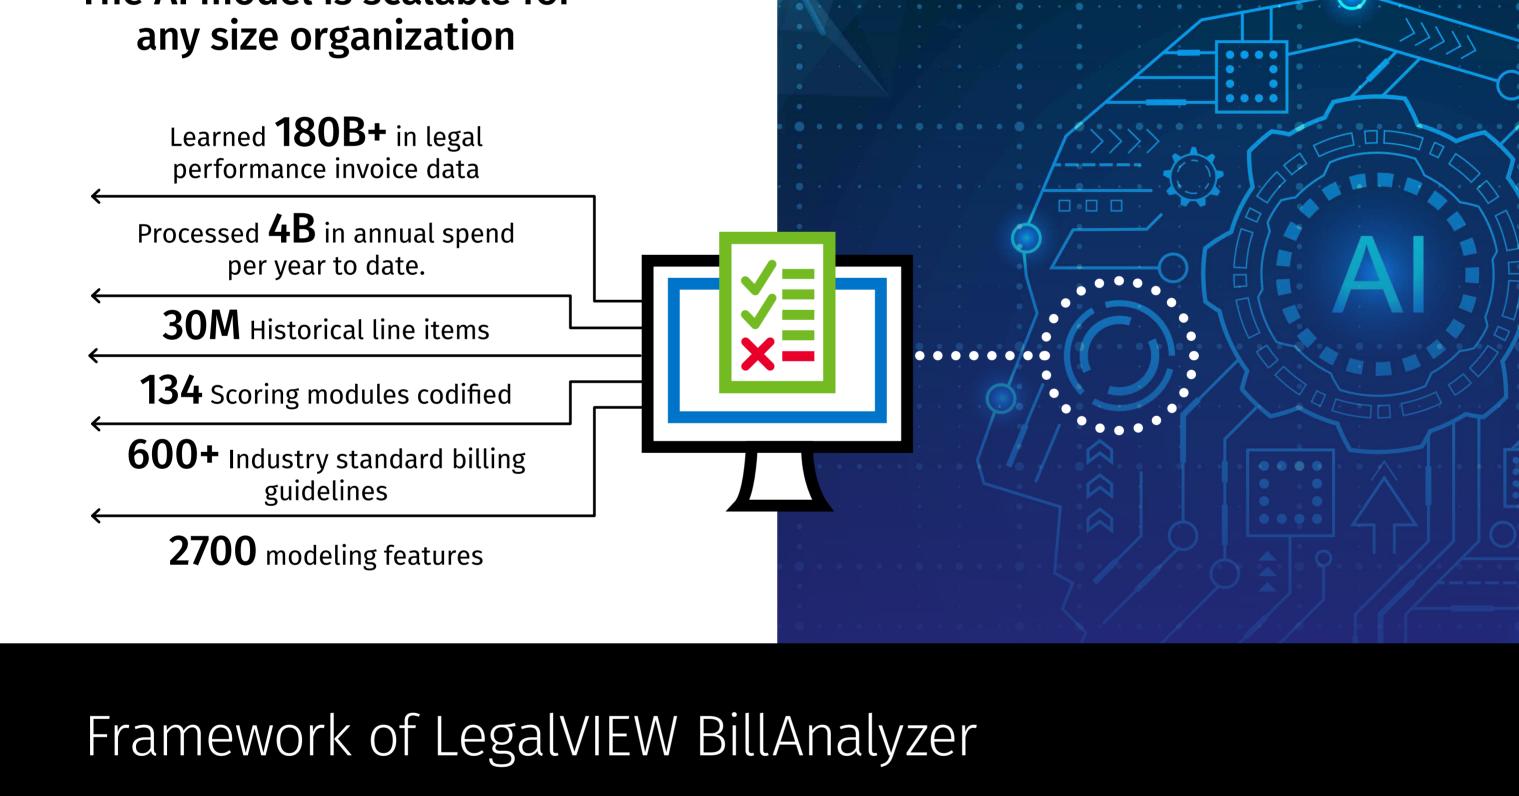

Administrative billing

Non-billable administrative

tasks were billed, for example faxing, filing, emailing, scanning, phone calls, etc.

The AI model is scalable for

Highly advanced AI model
