

To communicate with my client

Streamline your client communication, by securely and efficiently sharing documents with clients online.

Wherever your clients are, connect with them easily and securely, on a contemporary platform, which boosts efficiencies across the board.

From simple document sharing to secure digital signing, there's never been a safer way to communicate with your clients.

The easy way to work

As more firms seek to engage with clients remotely, CCH iFirm Client Portal provides an easy-to-use, secure channel to share data, reports or documents for review or digital signing with clients. As the status of each document is shown, you can tell at a glance whether it has been opened or signed by your client.

First-class encryption

For your peace of mind, CCH iFirm Client Portal employs the very latest in tried-and-tested security innovation, which means you know that whatever it is you're sending, sharing or saying, you can be absolutely confident that no-one else is intercepting or viewing your material. For additional security, you can use multi-factor authentication within the portal, ensuring privacy and security are of utmost priority.

Intelligent integration

CCH iFirm Client Portal integrates with CCH iFirm Signatures to facilitate digital signing of documents as well as the Contacts, Practice Management and Document Vault modules.

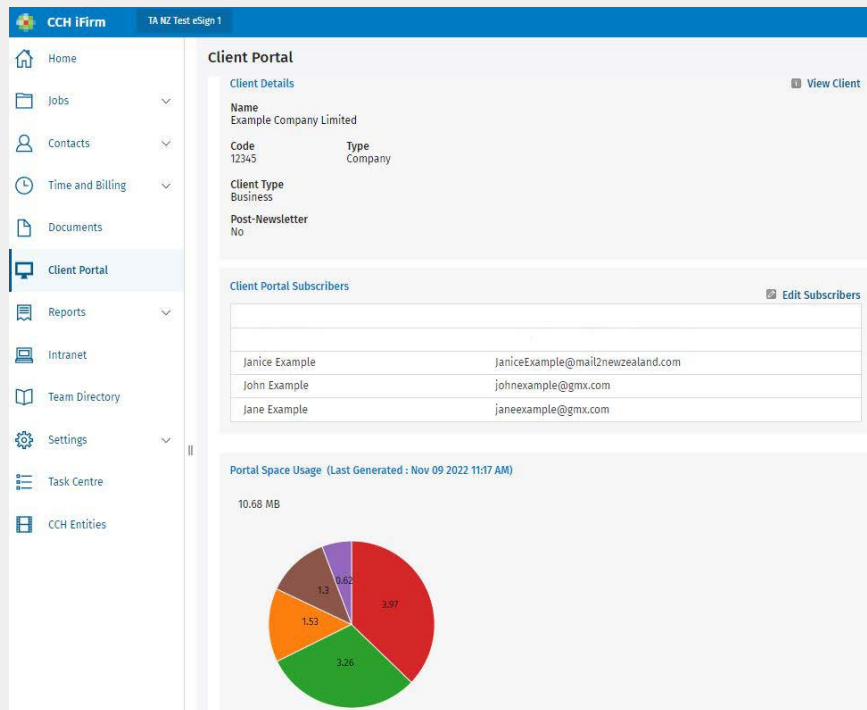

CCH iFirm is an award-winning, cloud-based suite of unified practice management and compliance tools for your firm.
