Key features

In addition to reporting on cost basis adjustments, Capital Changes Corporate Actions Daily provides an unrivaled holistic analysis of the tax consequences unique to specific corporate actions through several exclusive features:

✓ Basis Factors™

Capital Changes Corporate Actions Daily verifies basis calculations provided by companies and utilizes these figures whenever possible. Additionally, Capital Changes Corporate Actions Daily provides its own calculations on a preliminary basis to allow for immediate processing and use in the absence of reliable company calculations.

✓ Commentary™

In cases where no tax opinion is provided or if any aspect of the transaction is unclear, Wolters Kluwer will publish guidance for booking and tax treatment based on expert analysis of the transaction's structure.

✓ Tax Comments™

Comments are included when a company's tax opinion omits a basic, well-settled principle of tax law that our subscribers need to remember when booking a transaction or calculating their gain or loss. In addition, this special feature may also highlight and explain portions of a company's tax opinion that should be emphasized.

✓ Fair Market Value

Capital Changes Corporate Actions Daily provides fair market values needed to determine the gain or loss resulting from certain corporate transactions.

✓ Basis Allocations

Capital Changes Corporate Actions Daily is a unique source of basis allocations in nontaxable transactions.
