

# TyMetrix® 360°

E-billing and legal matter management solution that is easy to use, simple to learn, and ready-built for the way you work

TyMetrix® 360° is an intuitive, SaaS-based solution that helps you gain visibility, control costs, and streamline workflows. Essential features, such as AI-powered matter summarization and ready-built functionality, help your legal staff streamline daily activities and improve the management of outside counsel billing costs. Easy-to-use reporting and analytics gives your team visibility into every aspect of your department's performance. And, as a SaaS solution, TyMetrix 360° offers corporate legal and insurance claims departments the added benefits of ease of installation and maintenance plus a lower total cost of ownership (TCO).

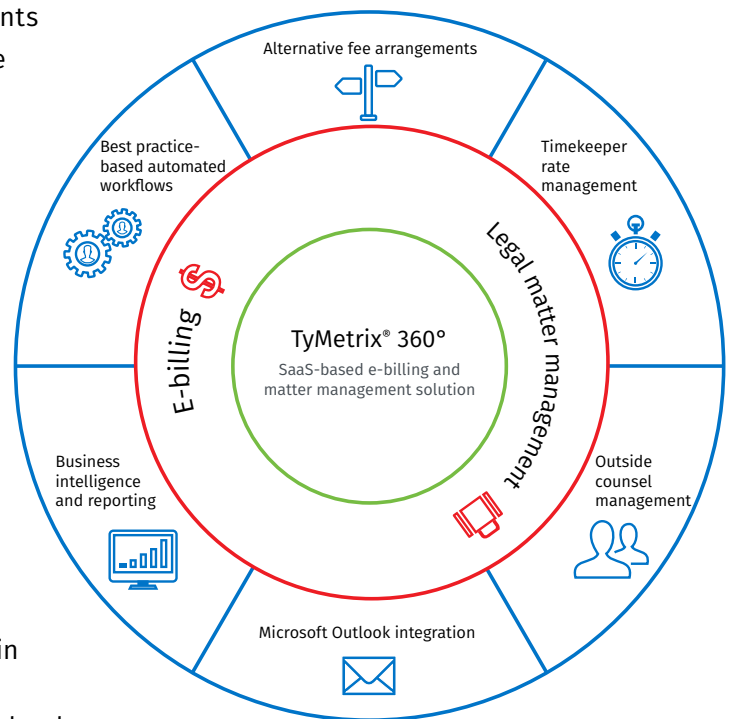

## Key benefits

### Deliver cost savings and improve productivity

- Offers a wide range of functionality, with client-configurable features and best practice-based workflows to drive e-billing efficiencies
- Automatically enforce compliance with outside counsel guidelines, alternative fee arrangements (AFAs), and negotiated discounts
- Quickly and securely review and approve invoices anywhere using the TyMetrix 360° mobile app
- Personalized data summaries, visualizations, and graphics clearly communicate complex information and KPIs

### Improve decision-making with clear visibility and insight into legal spend

- Improve the transparency and predictability of legal spend, resource usage, staffing, and budgets
- Review, approve, reject, or modify invoices with the click of a button
- Make smarter, data-driven decisions with modern, Microsoft Power BI-enabled reports and dashboards
- Easily generate, customize, and analyze reports with self-service access to centralized data and drag-and-drop fields
- Customizable charts, graphs, and tables to uncover trends in legal spend and matter management
- Personalized data summaries, visualizations, and graphics clearly communicate complex information and KPIs

### Strengthen collaboration with internal business partners and outside counsel

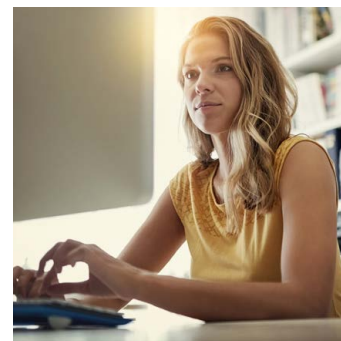

- Securely collaborate with outside counsel and other legal service providers on matters, budgets, timekeepers, diaries, notes, calendars, and documents
- Easily share knowledge and track all information associated with a large matter portfolio in a secure and consolidated place
- Keep legal teams instantly informed with real-time snapshots of matters by timekeeper, quarter, and phase—streamlining collaboration, and improving cost control using AI-powered single-matter summaries

### Reduce system support costs and drive down TCO within a reliable, secure cloud environment

- Implementation, maintenance, hosting, and security are all managed by our company, which virtually eliminates client-side IT efforts
- Hosted in either the United States or European Union to meet our clients' global business and regulatory needs
- Access to new releases and upgrades in real time, without installing new software
- Technology services grounded in the three guiding principals of information security—confidentiality, integrity, and availability
- Flexible, self-serve administration capabilities provide configuration options for staff and reduce reliance on internal IT support

### Key features

- Configurable screens, fields, rules, reporting, and workflows
- Role-based displays and desktop controls
- Multicurrency and VAT support
- Workflows to automate tasks and business processes
- Automated enforcement of outside counsel guidelines, AFAs, and discounts
- Automatic alerts, reminders, and notifications
- Single-matter Summary AI automates summarizing legal documents, reducing manual workload for legal teams, increasing productivity, and enabling legal professionals to spend more time on analysis and strategic decisions
- A self-service reporting platform delivering the power of centralized data on a fully integrated Power BI platform
- Access to organization-specific fields enables users to customize visual and interactive reports to align with business objectives, conveying deep insights and actionable analysis
- Powerful keyword and filter-based search functionality
- Flexible invoice submission methods and full-service e-billing support for legal service providers
- Secure collaboration on matters, budgets, timekeepers, diaries, notes, calendars, and documents

Customizable out-of-the-box reporting and analytics enable visibility into every aspect of your department's performance.
