

Aircraft Operating Leasing: A Legal and Practical Analysis in the Context of Public and Private International Air Law, Third Edition

Donal Patrick Hanley

This book is the first to assume this task in a significantly focused way, thus providing invaluable expert guidance to practitioners handling aircraft lease agreements and legal academics and students. As a detailed examination of each part of the lease with particular reference to the impact on each term of relevant case law, statutes, regulations and international treaties, this work greatly enhances understanding of the legal and practical aspects of the aircraft operating lease.

Freedom of Overflight: A Study of Coastal State Jurisdiction in International Airspace

Merinda Stewart

This book is the pioneer in-depth analysis of overflight that blends the perspectives of international civil aviation law and the law of the sea. It offers a comprehensive study of the legality of attempts by coastal States to exercise jurisdiction in international airspace over aircraft registered in other States, thus taking a giant step towards determining what freedom of overflight entails by establishing its legitimate limitations. It will be highly appreciated by practitioners, policymakers and academics concerned with international transportation, national defence, international trade and other areas of international law.
