

LWW Health Library: Physician Assistant

Why LWW Health Library?

Designed to support foundational learning and clinical practice, LWW Health Libraries deliver trusted health science education and clinical content to residents, fellows, program directors, faculty, and clinicians through a single portal — providing interactive online access to essential textbooks, multimedia & imagery, real-life case studies, and quizzes.

These two **LWW Health Library: Physician Assistant** collections offer comprehensive support for Physician Assistant students throughout both years of their curriculum. Individually or together, they're designed for mastering the fundamental concepts and skills required for their curriculum, and preparing for exams and professional practice.

LWW Health Library Physician Assistant Collections: Core Education and Rotations/ Specialties

- **“Core” collection:** covers all anatomical and basic sciences required within the curriculum
- **“Rotations/Specialties” collection:** covers the clinical rotations requirement of the PA curriculum; search and browse content across core rotations or within a specific rotation

Case studies broken down by rotation and Q&A help prepare for rotations and develop clinical reasoning

RSS feed for both collections from two renowned PA journals (*JAAPA* and *JPAE*), featuring links to timely articles

Two collections of educational and clinical content supporting students in both years of a PA curriculum

Key Features of LWW Health Library:

A single portal to foundational and basic sciences resources, as well as rich multimedia tools for teaching, learning, and practice.

- **Highly-rated references:** Trusted, core texts from Lippincott Williams & Wilkins, making it a one-stop, digital portal for authoritative content paired with industry-leading functionality
- **Account personalization:** Save content to a ‘My Health Library’, access Health Library from any computer, and set up email alerts for when new content is added
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation
- **Ovid MEDLINE widget:** Connects students to valuable primary literature with an exclusive search widget, which returns targeted results and article previews
- **Advanced semantic search:** View results displayed by title, chapter, topic, and/or type of resource
- **Responsive Design:** Browse content on your computer, tablet, or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give residents control over their progress and motivation to learn
- **Sharing:** Much content, including technical videos, can be shared with colleagues and classmates
- **Print/save a chapter:** Download chapters via pdf, for easy access to content when offline — for note-taking or to print
- **Multimedia ancillary content:** Access videos, images, Q & A, patient education handouts, and more
