

Health Library

Surgery

Why Health Library?

Designed to support foundational learning and clinical practice, Health Library delivers trusted health science education and clinical content to trainees and residents, fellows, program directors, faculty, new clinicians, and students through a single portal — providing interactive online access to essential textbooks, multimedia and imagery, real-life case studies, and quizzes.

Health Library: Surgery helps practicing clinicians, residents, and trainees efficiently acquire scientific fundamentals and learn about the latest technical skills to succeed in the OR and on board exams.

Key features of Health Library:

- **Account personalization:** Build a unique Health Library experience by saving and organizing content with My Favorites
- **Quizzing:** Create custom quizzes organized by topic, keep track of responses, and link to relevant content to help with remediation (subscription model only)
- **Advanced semantic search:** View results displayed by title, chapter, topic, and type of resource
- **Responsive Design:** Browse content on your computer, tablet, or smartphone with ease
- **Self-directed learning:** Simple, intuitive navigation and individualized self-assessments give students, residents, fellows, trainees, and new clinicians control over their progress and motivation to learn
- **Multimedia ancillary content:** Access videos, images, Q & A, case studies, and more

Procedures-focused curriculum solution covering each core surgical rotation
