

Meet Ovid[®]: Your trusted, tireless research partner

We work hard so you don't have to

From gathering market intelligence to finding the latest clinical trials or safety information, comprehensive literature searches are the backbone of research and reporting activities that accompany every phase of a drug's or device's life cycle.

You need a single resource that will keep you current every step of the way – whether your work requires data on trends in shifting R&D priorities or publications that support your drug's or device's claims.

Because your time is limited.

Today, almost half of all U.S. publications are dedicated to health-related research of drugs, devices, and biotechnology, and more than 2 million scientific articles are published globally each year.

Who has time to keep up with all this? Ovid does.

We focus on resources so you can focus on results

You don't need more work to do; you need the right results for your work.

Reporting activities can help or hinder the path to expedited review or regulatory approval for a drug or device. Ovid's robust platform will support you throughout that entire life cycle – with literature that is current, comprehensive, and compliant for inclusion.

Ovid enables you to find what you need, when you need it, and use it to your advantage. Put its unsurpassed curating abilities to work for you.

Typical Ovid users:

- Clinical professionals
- Directors of preclinical development
- Information specialists
- Medical affairs
- Market researchers
- Medical directors
- Medical librarians
- Medical writers
- Pharmacovigilance teams
- Policymakers and administrators
- Portfolio directors and brand managers
- Regulatory affairs officers
- Research & development teams
- Risk & compliance officers

Work your way

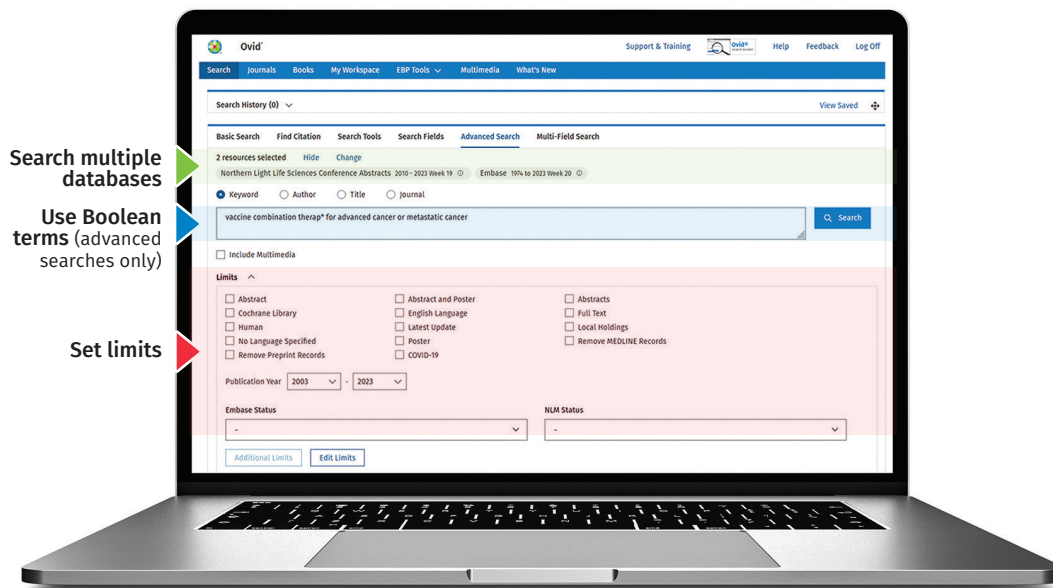

Work smarter

Tap into the industry's most powerful platform for accessing and searching the most extensive collection of exclusive content for pharmaceutical and biotechnology R&D. Ovid®'s fully integrated solution is your single source for content – including medical journal articles, textbook chapters, study designs, evidence-based medicine reviews, market intelligence, congress abstracts, conference reports, multimedia training, and much more.

Work faster

Make your search time count. Whether you're a novice or an expert user, Ovid increases your work efficiency with its seamless search interface.

Search the way you want: by field, keyword, or natural-language phrases. Search one or multiple databases simultaneously – and one or multiple fields (such as title and abstract) simultaneously. You can place limits on dates and other parameters to fine-tune any search.

Get better results

Ovid cuts through the noise to find exactly what you need – automatically eliminates duplicate results between databases – and lets you control the level of detail you obtain. From executing precision searches to obtaining full-text documents, Ovid supports you through every step.

Additionally, Ovid WebStats and COUNTER 5 reports track your usage to help inform your purchasing decisions – so you can be assured cost-conscious access to the best, most relevant databases.

More than
100
core and niche
databases

Examples include:

MEDLINE®

Embase®

Evidence-Based
Medicine Reviews

Derwent Drug File

Northern Light™ Life
Science Conference
Abstracts

International
Pharmaceutical
Abstracts

Biosis®

APA PsycInfo

EconLit

Manage your work with Ovid's end-to-end workflow features

My Workspace		My Projects
 <p>Save, modify, and/or combine searches in your search history</p>	 <p>Set auto alerts to notify you via email or RSS of new content of interest</p>	 <p>Organize and store all your materials in one place</p>
 <p>Share searches through Search History links</p>	 <p>Export and auto-format search results and citations</p>	 <p>Save items external to Ovid</p>
 <p>Schedule searches to rerun (e.g., weekly) to fully capture currency of literature</p>	 <p>Receive an eTOC for a new journal as soon as it's released</p>	 <p>Maintain current and archived projects</p>

You're never alone

Regardless of whether you're a new or expert Ovid user, we're here to help. All Ovid users have access to our worldwide, best-in-class support. For twelve consecutive years, Wolters Kluwer has received the NorthFace ScoreBoard award, the most prestigious honor for customer service excellence, determined by customer-only vote criteria.

The hallmark of Ovid's longstanding service record is its wraparound, comprehensive support:

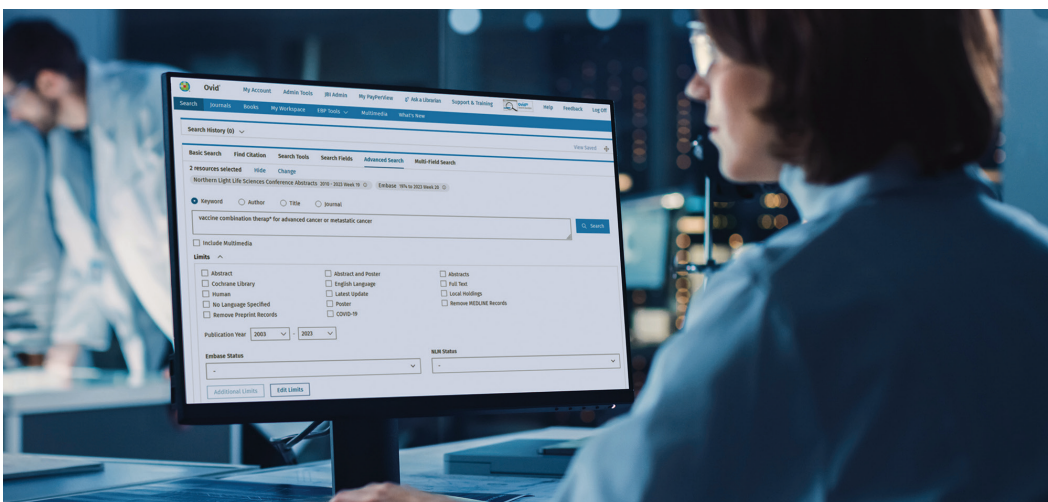

- Implementation training
- Quick reference guides
- Ovid Jumpstarts (shortcuts in Ovid's interface)
- Database field guides
- Brainshark instructional videos for all levels of users
- Knowledge Community
- Database customizations
- Troubleshooting calls
- System check-ups and maintenance
- In-person training with expert Ovid staff
- And any other support you need

"We subscribe to [multiple databases] through the Ovid platform due to the flexibility and precision it allows our researchers ... We find the platform allows us to run and manage complex, reproducible searches. We have had responsive and helpful support [in terms of training and customization] to ensure the platform meets our needs."

— an Ovid user

Ovid support is available 24/7/365 in 20 languages.

Put Ovid® to work for you

If you perform any of these activities:

- Risk & compliance assessment
- Business development
- Clinical decision algorithms
- Clinical trials oversight
- FDA/EMA submissions
- Formulary decisions
- Investigation of drug lead candidates
- Health plan sponsorship
- Market intelligence
- Pharmacovigilance
- Post-marketing surveillance
- Preclinical research
- Public health/epidemiology
- Regulatory guidelines development

If you write any of the following:

- BLA (Biologics License Application)
- CER (Clinical Evaluation Report)
- CSR (Clinical Study Report)
- HEOR (Health Economics and Outcomes Research)
- HTA (Health Technology Assessment)
- IB (Investigator's Brochure)
- ICSR (Individual Case Safety Report)
- IND (Investigational New Drug Application)
- MAA (Marketing Authorisation Application)
- NDA (New Drug Application)
- PMA (Premarket Approval Application)
- SmPC (Summary of Product Characteristics)

Ovid — a global leader for clinical, medical, pharmaceutical, and medical device research and support for more than 30 years.
