- Easily understand performance against business goals and objectives with at-a-glance views of metrics and business metrics
- Drill-down into interactive metric dashboards to perform granular analysis of matters, operations, legal spend, and more, and enable better-informed business decisions
- Analyze data quickly using data visualizations a variety of graphical formats, such as bar, column, and line charts and graphs
- Benchmark legal spend and legal operations performance against industry peers using data from LegalVIEW to identify optimal opportunities for improvement in the legal and claims departments

Gain clear insight into legal spend and department operations.

*exclusively available for LegalVIEW Data Contributors

LegalVIEW® Dashboards

Efficiently share relevant information and communicate business performance with ease.

- Easily export data and KPIs into other formats, documents, and presentations to effectively communicate key metrics to executives and business partners
- Ensure that users always have the most current and relevant data at hand using dashboards.
- Users can set email reminders to notify when dashboards are ready to review.

Enjoy secure, efficient, and easy deployment.

- Get started quickly – the Dashboards solution requires no on-site installation or technical support
- Access the most current metrics and information with near-real-time data updates
- Leverage the solution's role-based security to ensure that data is only accessible to authorized users and that staff members have access to the information that is most relevant to their role

Dashboards for the right decisions.

Organizations require an effective way to view metrics that identify areas in legal matter management and legal spend management that are performing well and areas that require improvement. The charts in LegalVIEW Dashboards display those metrics in graphic formats (dashboards and data visualizations) that provide flexibility, clarity, and the ability to drill deeper into each graphic element.
