Expert AI you can trust.

CCH iKnowConnect AI delivers accurate, jurisdiction-specific answers grounded in expert-reviewed editorially curated content.

Combining cutting-edge generative AI with more than six decades of Wolters Kluwer's deep domain expertise—ensuring compliance, confidence, and clarity, not guesswork.

Privacy and security by design.

Our AI is built for trust. Operating in a closed, encrypted environment aligned with NIST and SOC 2 Trust Principles, it ensures your data stays confidential, secure, and untouched.

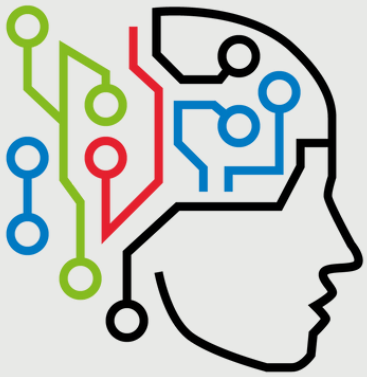

Unlike generic platforms, your prompts are never used for training, eliminating risk of leakage or misuse.

Real efficiency gains and productivity that pays off.

Our AI isn't just fast, it's transformative. According to our July 2025 Beta Testing Survey, 93% of users said the AI helped them work faster, and one in four reported cutting their research time by over 75%.

That's not just minutes saved. It's hours reclaimed for higher-value work, strategic thinking, and faster client delivery.
