

Oncology Nursing Society eBook Collection

The Oncology Nursing Society (ONS), a leading publisher of oncology nursing books, offers essential resources that support and advance nursing practice. The ONS mission to advance excellence in oncology nursing and quality cancer care is accomplished by developing evidence-based education, providing treatment information, and working to improve outcomes and quality of life for those effected by cancer. ONS works with the broader cancer community to reduce cancer risks through health promotion, early detection, and enhanced management of symptoms across the cancer care continuum.

What's included:

Includes 2025 editions of:

Oncology Nurse Navigation: Delivering Patient-Centered Care Across the Continuum, 3rd Edition, 2025

Addressing barriers, and improving patient outcomes, both new and experienced nurse navigators are equipped with essential guidance on coordinating cancer care. Integrating ONS/ONCC® competencies, this edition covers navigation models, personalized medicine, interdisciplinary collaboration, and more. It offers practical solutions to real-world challenges while supporting professional growth and effective care coordination.

Guide to Cancer Immunotherapy, 2nd Edition, 2025

Dive into the principles of immunotherapy and relevant biomarkers, as well as up-to-date information on checkpoint inhibitors, immunomodulators, vaccines, monoclonal antibodies, cytokine therapies, and more. It also provides an expanded case-based management strategy with nursing case studies and considerations for care and patient education. As immunotherapy continues to evolve and shape cancer treatment across all stages, this comprehensive reference serves as a guide for understanding and managing these therapies and their associated toxicities across the cancer continuum.

ONS Safe Handling of Hazardous Drugs Quick Guide™, 1st Edition, 2025

This quick reference provides oncology nurses and other healthcare professionals with essential, evidence-based guidelines for safely handling hazardous drugs in various settings. This quick reference resource covers standards, guidelines, and best practices, including USP <800>, NIOSH recommendations, and ONS/ASCO/HOPA joint position statements. It is designed to support safe practice, education, and advocacy for workplace safety.
