

LWW Total Access Archive Collection

(Coverage to 2018)

Exclusive access to the backfiles of 298 journals is available from one of the world's leading medical, nursing, and health science publishers.

Archival resources are crucial to the research process, providing a valuable chronology of theories and discoveries that underpin today's healthcare practices and inform future innovations. What are the foundations of current techniques in open heart surgery? How did modern cancer and diabetes treatments evolve?

With the LWW Archives, available exclusively on Ovid® — the industry-leading precision search and discovery platform — you can help researchers answer these questions and more.

Ovid® EXCLUSIVE!

- Build your full-text library with the backfiles of 298 journals in core clinical and medical specialties.
- Provide instant, exclusive access to more than 5 million pages of groundbreaking research from Nobel laureates and other world-renowned scientists.
- Take advantage of Ovid's powerful search functionality, flexible and time-saving workflow tools, and intuitive interface.
- Use electronic archives to free up shelf space and save on interlibrary loan costs.

Why LWW Archives 2018?

- Electronic journal content you can't find anywhere else — more than 77,000 journal issues with nearly 2 million articles containing original research, reviews, notes, letters, case studies, and images
- Over 96% of available files sourced — well above the industry standard
- Most coverage dates beginning with the journal's earliest available issue through 2018
- Provides access to the front-file and back-file of the same journal or collection simultaneously
- Clean, easy-to-read text and images, including photos, illustrations, tables, charts, and graphs, produced using multiple, state-of-the-art scanning processes
- Full integration with your institution's other electronic journal, book, and database holdings
