

Datasheet**Future-proof your SAP investment with
CCH® Tagetik for SAP HANA®****The Intelligent Platform built for the future**

Complete the financial close, consolidation, planning, regulatory reporting — but in a fraction of the time. By pairing our market leading CPM platform with SAP HANA's in-memory technology, you get the ultimate in data processing performance. Our pre-built connector seamlessly integrates with SAP S/4HANA® databases for maximize system uptime. Not only does this perfect combination supercharge your ability to get things done, but our finance-owned, cloud-based approach puts the power of agility in your hands.

Propel your SAP strategy and optimize your financial processes**A Future-Ready Foundation**

Our SAP-certified solution centralizes vast amounts of detailed financial and operational data into a single source of truth, leveraging SAP HANA's in-memory technology for superior performance. CCH Tagetik for SAP HANA is SAP S/4HANA®-ready, integrates seamlessly with SAP Analytics Cloud, and offers flexible deployment options, either as SaaS in the cloud or on-premise.

Automated SAP S/4HANA® Metadata Sync

Our integration routines provide out-of-the-box synchronization of all essential SAP S/4 HANA metadata in CCH Tagetik. Automatically extract master data, such as general ledger, group accounts, and cost centers, along with their respective hierarchies. Any changes to metadata in SAP S/4HANA are seamlessly imported into CCH Tagetik, including all associated attributes and hierarchies.

Cut data integration costs by 30% or more

Connect SAP HANA and non-SAP HANA data sources. Easily connect and drill through to SAP S/4HANA and any SAP solution via SAP HANA smart data access or SAP Smart Data integration. Automate integration for SAP solutions with data and metadata extraction and mapping from +30 SAP tables in SAP® BW/4HANA®, SAP ECC, and SAP S/4HANA.

**70% faster consolidation and reporting;
40% improvement in allocations**

Boost financial processes with data processing from SAP. Speed up consolidation, and reporting with in-memory technology, parallel processing capabilities, and mass data processing. CCH Tagetik for SAP HANA runs natively on SAP HANA with no latency, resulting in the fastest data processing on the market.

“CCH Tagetik has given us the first platform for a global installation of accounting product. We have never been able to give our international users access to our tools. Now they have a one stop shop to get all of their information for forecast and actuals.”

Donna Durling

Assistant Director – Accounting
Principal Investment Group

Key benefits

- Extend your SAP investment
- Simplify the IT infrastructure
- Flexible deployment options
- Mitigate extract-transform-load risks
- Reduce integration consulting costs by up to 30%

Key capabilities

S/4HANA Connector: Our pre-built S/4HANA connector integrates data from over 30 tables across Financial and Accounting (FICO), Sales and Distribution (SD), Profit Center Accounting (PCA), and other S/4HANA modules.

Metadata Integration: Automatic master data management for elements and hierarchies.

Real-time Data Access: Eliminate latency with SAP HANA Smart Data Access (SDA) and SAP Smart Data Integration (SDI) to SAP source systems.

Real-time Reporting and Analytics: CCH Tagetik automatically generates the SAP HANA analytical model (dimensionality, data, and security) for use in SAP Analytics Cloud or SAP Analysis for Office.

Leverage the SAP HANA Product Stack: CCH Tagetik is continually expanding its integration with the SAP HANA product stack and technology.

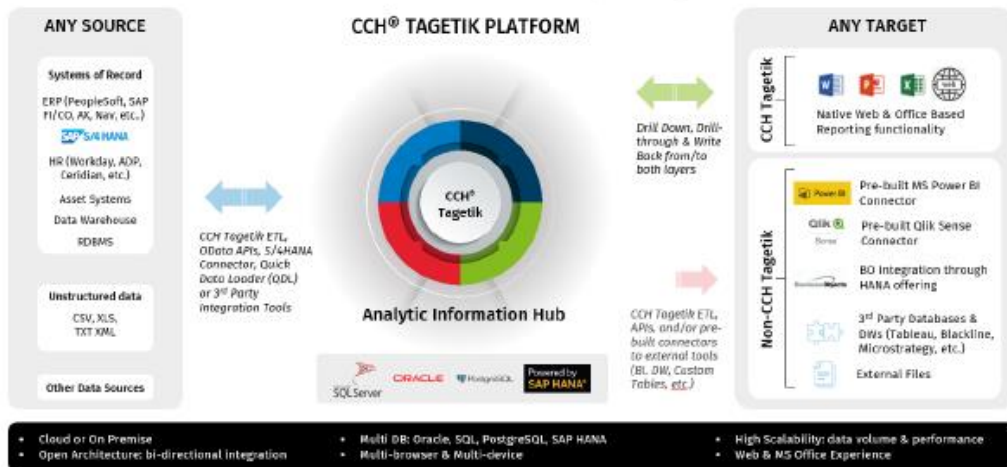

Real-time Data Integration: Reduce integration costs by 30% or more with our SAP solution integration. Automate data and metadata extraction and mapping from SAP ERP Finance and SAP® Business Warehouse (SAP BW) tables.

Flexible Deployment: Deploy CCH Tagetik for SAP HANA on-premises or in the cloud (AWS, Azure, SAP Cloud).

Expand the Scope of Close and Consolidation: Our software intelligently supports end-to-end financial close processes, tax compliance, ESG and regulatory obligations, reporting, and integrated disclosure.

Use AI to Augment Close Processes: Our AI and ML technologies underpin consolidation processes, enhancing accuracy and speed of daily tasks with AI matching, AI auto-mapping, AI anomaly detection, and AI driver-based analysis.

CCH Tagetik open and extensible platform provides powerful data integration, transformation, and reporting

About Wolters Kluwer

Wolters Kluwer (EURONEXT: WKL) is a global leader in professional information, software solutions, and services for the healthcare, tax and accounting, financial and corporate compliance, legal and regulatory, and corporate performance and ESG sectors. We help our customers make critical decisions every day by providing expert solutions that combine deep domain knowledge with specialized technology and services. Wolters Kluwer reported 2022 annual revenues of €5.5 billion. The group serves customers in over 180 countries, maintains operations in over 40 countries, and employs approximately 20,000 people worldwide. The company is headquartered in Alphen aan den Rijn, the Netherlands.
