

CAB ABSTRACTS

**Your access to the world's
applied life sciences research**

CAB Abstracts is the leading English-language bibliographic information service providing access to the world's applied life sciences literature through abstracts and access to full text.

CAB Abstracts gives researchers access to 9.2 million records from 1973 onwards, with over 350,000 new abstracts added each year.

- Publications from over 120 countries in 50 languages
- Indexing over 10,000 academic journals, books, conference proceedings and reports specially selected by our subject experts
- Find articles quickly with Ovid®'s powerful journal browse and search functionality, as well as flexible, time-saving results management and refinement tools
- Comprehensive subject indexing with the CAB Thesaurus, our controlled vocabulary tool, making searching easier and providing more precise access to ALL relevant research
- The international focus of our CABI full-text repository means that your users have access to a wide cross-section of global research, giving the complete picture they need.

Who uses CAB Abstracts?

CAB Abstracts is used by hundreds of the world's leading institutions, including 75% of US land-grant universities, together with many of the premier universities and research centres from across the globe. CAB Abstracts is truly the first choice for agriculture and related applied life sciences.

Access to Full Text

Full text is an integral part of CAB Abstracts. Over 35% of records added per year link to free full text available in open access documents or in the CABI full text repository – 80% of which aren't found anywhere else in digital form.

More Core Serials Than Any Other Database

A study published in the *IAALD Quarterly Bulletin* revealed that CAB Abstracts covered more serials identified as core journals in agriculture than any other database that was examined.

- CAB Abstracts covers over 8,000 serials.
- Over 3,100 of these are not available on Scopus®.
- Over 3,100 of these are not available on Web of Science®.
- Over 5,000 of these are not available in PubMed®.
- Over 5,200 of these are not available on Biosis®.
- CAB Abstracts also covers more unique serials in agriculture and the applied life sciences, ensuring users have access to all relevant research.

CAB ABSTRACTS

As well as indexing thousands of core scientific journals, CAB Abstracts offers extensive coverage of grey literature from around the world, including:

Annual Reports / General Reports / Handbooks / Bulletins / Monographs / Conference Proceedings / Newsletters / Discussion papers / Technical information / Field notes / Theses / Posters.

The international focus of our CABI full-text repository means that your users have access to a wide cross-section of global research, giving the complete picture they need. All areas of the world are represented, including developing countries.

COVERAGE

Agricultural engineering

Applied health

Animal nutrition

Animal production

Applied economics and sociology

Biofuels

Biosafety and bioterrorism

Biotechnology

Breeding

Chemistry

Climate change

Crop science and grasslands

Ecotourism

Entomology

Environmental science

Food science and technology

Forestry

Genetics

Helminthology

Horticultural science

Human nutrition

Invasive species

Leisure and tourism

Medicinal plants and pharmacology

Microbiology

Mycology

Natural resources, land/water
management

Nematology

Organic and sustainable agriculture

Parasitology

Plant pathology

Plant protection

Postharvest

Protozoology

Soil science

Veterinary medicine

Virology

Waste management
