[C] Submission Guidelines

- [1] An article title should be concise, with a maximum of 70 characters.
- [2] The article should contain an abstract, a short summary of about 200 words. This abstract will also be added to the free search zone of the Kluwer Online database.
- [3] To further boost the search engine optimization (SEO) of your article, please provide approximately ten keywords that describe the content of your contribution.
- [4] A brief biographical note, including both the current affiliation as well as the e-mail address of the author(s), should be provided in the first footnote of the manuscript.
- [5] Articles should not exceed 12,500 words, unless the contributor is prepared to have the article split over two issues.
- [6] Only articles in English will be considered for publication. Manuscripts should be written in standard English, while using 'ize' and 'ization' instead of 'ise' and 'isation'. Preferred reference source is the Oxford English Dictionary. However, in case of quotations the original spelling should be maintained. In case the complete article is written by an American author, US spelling may also be used.

- [7] Manuscripts will be returned to the author if the English is below standard. In case of doubt about the correct use of the English language, authors are advised to have their text checked by a native speaker before submitting it.
- [8] Heading levels should be clearly indicated.
- [9] Special attention should be paid to quotations, footnotes, and references. All citations and quotations must be verified before submission of the manuscript. The accuracy of the contribution is the responsibility of the author. The journal has adopted the Association of Legal Writing Directors (ALWD) legal citation style to ensure uniformity. Citations should not appear in the text but in the footnotes. Footnotes should be numbered consecutively, using the footnote function in Word so that if any footnotes are added or deleted the others are automatically renumbered.
- [10] Tables should be self-explanatory and their content should not be repeated in the text. Do not tabulate unnecessarily. Tables should be numbered and should include concise titles.
- [11] Figures should be submitted as separate files along with the manuscript, and it is very important that they are high quality: .tif or .jpg files with a resolution of at least 600 dpi. Image material that has been downloaded from the internet generally is not acceptable due to low resolution.
- [12] Submitted manuscripts are understood to be final versions. They must not have been published or submitted for publication elsewhere.
- [13] Manuscripts should be submitted electronically, in Word format, via e-mail.

For further information on style, see the [House Style Guide](#).

[D] Review Process

- [1] Before submission to the typesetter, manuscripts may, if requested for REA purposes, be reviewed by members of the Board of Editors and may be returned to authors for revision. The main editor reviews and selects all submitted articles for each issue. Single-blind or double-blind peer review is available on request.
- [2] The journal's policy is to provide an initial assessment of the submission within thirty days of receiving the posted submission. In cases where the article is externally referred for review, this period may be extended.
- [3] The Publishers reserve the right to make alterations as to style, punctuation, grammar etc.
- [4] In general contributors will receive proofs of their article but are expected to make any essential corrections within four working days.

[E] Copyright

- [1] Publication in the journal is subject to authors signing a 'Consent to Publish and Grant of Exclusive License' form. By signing this Form, authors warrant and represent that their contribution does not contain infringing, libelous, obscene or other unlawful matter.
