**Access** UpToDate® Lexidrug™ drug interactions tool.

**Calculate** many different medical measures.

**View** list of UpToDate® Pathways by specialty.<sup>1</sup>

**Hover** over right edge of topic result to show full topic outline. Click a link to go to a specific section.

### 3 Research the Topic

More than 14,000 evidence-based medical topics provide the information you need for optimal patient care.

View a detailed outline within each topic.

Click to go directly to summary and treatment recommendations.

Click on a heading to go directly to the information you need.

Access related topics to find additional information.

View all graphics associated with a topic in a thumbnail format.

Provide valuable feedback by submitting questions and comments to our editors.

View a gallery of all graphics within each topic.

Link to information about authors and editors.

View notification(s) of clinically significant change to topic.

Search for a word or synonym within a topic.

Accrue free CME/CE/CPD credits.

Complete CME reflection questions in-topic.

Print text, references, graphics, or the entire topic.

Bookmark content for quicker access.

View formulary status when prescribing medications.<sup>2</sup>

Share information via email.

View the date that the topic was last modified, based on continuous review of the latest research.

Click to view a Medline abstract with full text when available.

The screenshot shows the UpToDate interface for the topic 'Achilles tendinopathy'. The top navigation bar includes the UpToDate logo, a search bar with 'achilles tendonitis', and user information for 'Jeff May' with 'CME 6.0' and a 'Sign out' button. The main content area is titled 'Achilles tendinopathy' and includes a 'Topic Graphics (27)' section. The left sidebar contains a table of contents with sections like 'Outline', 'SUMMARY AND RECOMMENDATIONS', 'WHAT'S NEW', 'INTRODUCTION', 'TERMINOLOGY', 'EPIDEMIOLOGY AND RISK FACTORS', 'CLINICAL ANATOMY', 'MECHANISM OF INJURY AND PATHOPHYSIOLOGY', 'CLINICAL PRESENTATION', 'PHYSICAL EXAMINATION', 'DIAGNOSTIC IMAGING', 'ADDITIONAL ULTRASOUND RESOURCES', and 'DIAGNOSIS'. The main content area features a 'What's New' section with a recent update on 'Ultrasound screening for tendinopathy in asymptomatic athletes (February 2025)'. Below this are sections for 'INTRODUCTION', 'TERMINOLOGY', and 'EPIDEMIOLOGY AND RISK FACTORS'. A 'Graphics' section at the bottom shows a list of related topics in a thumbnail format, including 'Monitoring in diabetes mellitus', 'ADA ophthalmologic exam schedule', and 'Comprehensive diabetic foot exam'. A 'Topic Feedback' button is located at the bottom right of the page.

#### Note: Visual depicts a registered user accessing UpToDate and accruing CME credit

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool. To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit [www.uptodate.com/cme](http://www.uptodate.com/cme) for the most current list of CME requirements. It is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.

<sup>1</sup>Lab Interpretation and UpToDate® Pathways are part of UpToDate® Advanced and can be added to UpToDate subscriptions for a fee. They are not available as standalone solutions.  
<sup>2</sup>Formulink formulary management integration can be added to UpToDate subscriptions for a fee.
