

ACC CardioSource Plus®

Now available from Ovid, this comprehensive educational package combines thousands of self-assessment programs and audio files of heart sounds/murmurs to support cardiologists in medical school, through residency, and on into professional practice. Produced by the ACC—which focuses on improving cardiac care delivery and better overall heart health—content is easily accessible through a personalized online platform to everyone at your institution or practice.

*Institutional Access
to Clinically-Oriented
Educational Resources and
Board Prep from the American
College of Cardiology*

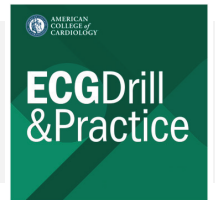

- Identify knowledge gaps or get a refresh on fundamental principles and procedures
- Prepare for Board exams in general cardiology, adult congenital heart disease, heart failure, interventional cardiology, echocardiography, or nuclear cardiology
- Earn hundreds of hours of CME/MOC as well as ECME credits
- Work toward specialty certification
- Identify and master basic and advanced heart murmur/sounds

Key Features:

- **Self-Assessment Programs**—topic-based modules covering general cardiology, adult congenital heart disease, heart failure, interventional cardiology, echocardiography, nuclear cardiology, and ECG Drill & Practice.
- **Heart Songs Library**—over 25 audio files of basic, intermediate, and complex heart murmurs and sounds to help improve cardiac auscultation skills
- Over 2,000 practice questions for evaluation and remediation
- Delivers more than 540 CME/MOC credits and nearly 500 European CME credits
- Centralized dashboard to access and manage all modules, materials, and files
- Content updated regularly!
- Mobile access to most content via ACC Learn Mobile app

ACC CardioSource Plus[®]

Self-Assessment Programs

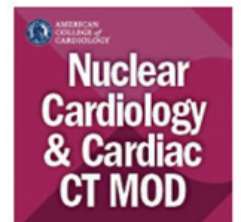

Understand and refresh core and advanced cardiology concepts, identify areas for further knowledge, and get ready for Board exams and certification.

- 6 distinct content sets: 1) ACCSAP (Adult Clinical Cardiology), CathSAP (Interventional Cardiology), EchoSAP (Echocardiography), EPSAP (Electrophysiology), HFSAP (Heart Failure), ECG Drill & Practice (ECG Interpretation)
- Nearly 2,000 practice questions aligned to society guidelines and exam blueprints
- Each topic-based module features a study guide, quiz builder, and simulated board exams
- Hundreds of case studies and thousands of echo images (EchoSAP)
- All SAP modules accessible on ACC Learn Mobile app once started on computer

Heart Songs Library

Everything you need to acquire and fine-tune cardiac auscultation skills!

- Includes basic, intermediate, and expert and adult congenital sounds
- Features images of phonocardiograms, CT scans and videos of color Doppler echocardiograms.
- 200 repetitions of each murmur to increase identification and recall
- Each audio file features key auditory characteristics and handheld echo findings

ACC Learn Mobile app

The ACC Learn Mobile app allows users more flexibility to download or stream the ACC CardioSource Plus modules they've started using. Users can continue SAP courses where they've left off, keep reading and viewing Meetings on Demand content, or listen to the Heart Songs recordings with their mobile devices, allowing users greater access to the trusted educational resources and board prep from the American College of Cardiology.

The **ACC Learn Mobile app** is available for both [Android](#) and [Apple IOS](#) devices.
