

Wolters Kluwer Health has been publishing dynamic content for healthcare providers for more than a century. Delivering quality content in a way that helps students learn is our core business.

## Powerful Tools to support 21st Century Medical Education

With the LWW Health Library's intuitive tools and functionality, health science students can easily navigate to relevant course content, multimedia, quizzing, connections to primary literature and more to support classroom activities and board preparation.

Users with a FREE personal account can enjoy personalization such as quizzing, note-taking, saved searches and content, robust printing capability, seamless off-site access and more.

*Improved content experience to make teaching and learning more effective*

To learn more about the LWW Health Library, see a list of collections, and preview key content, visit [www.healthlibrary.com](http://www.healthlibrary.com).

## Improve Student Outcomes by Meeting Them Where They Are

The LWW Health Library was created on the premise that if we can make texts and references better – more engaging, and more effective – we can actually make teaching and learning more efficient, improve outcomes for students, and help doctors, nurses, and health professionals provide better patient experiences.

LWW Health Library is a specialized collection of our most respected resources in a searchable, easy-to-use platform, with immediate access to videos, animations, questions and answers and other digital assets. LWW Health Library offers one point of entry and one central location for all of your content.
