Addressing Common Challenges

Constant Tax Legislation Changes:
Sales and use tax rates and rules vary and change widely by locale. CCH SureTax data experts keep up with every change to ensure you have the correct, current data at all times. This is especially important as your company grows, reaches nexus in new locations, and tax obligations broaden.

High Audit Risk:
On average, our clients report their audits lasting between 1 to 3 years. If not prepared, this can be a very stressful event for all levels of a company. Designed from the ground up to mitigate audit risk and reduce the total cost of compliance, CCH SureTax creates an audit trail and allows calculation results to be re-created and defended.

Wayfair Decision or Economic Nexus:
In addition to physical nexus, companies now must register with tax jurisdictions where they have reached a specific sales threshold no matter if they have a physical presence or not. The CCH SureTax dashboard enables its users to monitor nexus status and receive timely notifications of when next steps are required.
