

CCH® Tagetik for Budgeting, Planning & Forecasting for automotive

Datasheet

Self service analysis before self driving cars

With oil and gas prices influencing demand, joint ventures on the horizon and a future that favors environmentally friendly technology and maybe even the self-driving car, the auto industry finds itself in a time ripe for change, innovation and investments.

CCH Tagetik provides you with the insight to understand performance strengths and weaknesses so that you can craft budgets strategically, maintain an eye for agility, and allocate time, resources and human capital into the activities with the most return.

CCH Tagetik Planning for automotive

Align finance & operations with unified planning

Increase accuracy and confidence in your numbers when budgets, plans, forecasts and models across your company are created using a single version of the truth in a single system. With automated real-time and historical data, CCH Tagetik aligns strategic, financial and operational planning enterprise-wide, so the cycle is completed faster and with a 360* view of your business.

Reduce planning cycle time

As a single unified source for all your planning data, CCH Tagetik shaves days, weeks, or in some cases months off the planning cycle. With dynamic dashboards, workflow and controls, Managers can address bottlenecks before they happen. Planners work smarter and more efficiently with personalized work papers, task lists and self-service analysis.

Cash flow planning & forecasting

Cash in, cash out can mean the difference between lights on and lights off. CCH Tagetik automates the cash in, cash out impact of budget line items. When rates change, cash flow plans are updated instantly so you can make assessments quickly and change the plan as financials require.

Optimize the supply chain and production

To understand resource requirements and capacity constraints that impact production, supply and demand, play out business changes in what-if scenarios on the P&L and balance sheet. With pre-built, logic embedded in the product, like bills of materials, routings, inventory parameters, lead times, MRP netting, vendor allocations and capacity management, optimize resources and respond fast when production, supply or demand are impacted.

Integrate sales and operations

Connect supply chain, distribution and logistics with execution, while analyzing profitability and optimizing the product mix. CCH Tagetik integrates sales forecasts and operational plans with long-term and short-term financial goals and corporate objectives so that KPIs are realistic. With a single version of the truth across all reports and plans, budgets are based on plans and plans are based on — and adapt to — real time actuals.

Allocate resources intelligently

CCH Tagetik automates MRP II and resource planning so that you can see how operational and financial plans coincide. Allocate direct, indirect and activity based costs by specific drivers like clients, project, region and even SKU in order to assess profitability. Pivot data by business division (commercial, channel) and department (marketing, finance), see true costs and profits at any level and re jig resources and strategy accordingly.

“The biggest impact of CCH Tagetik was that it got rid of the manual work. Our CFO can now rely on the data and that’s the most important thing.”

Senior BI Professional, Daimler

Key Benefits

- **Reduce Planning Cycle Time (by days)**
- **Optimize Resources**
- **Align Finance & Operations**
- **Modernize Finance Technology**
- **Increase Accuracy, Efficiency & Control**
- **Lower Risk**
- **Lower TCO**

Why CCH Tagetik

- **Finance Owned:** Purpose built to be maintained by Finance, reducing dependency on IT.
- **Unified CPM Solution:** Consolidation, Planning and Reporting in one solution provide confidence in your data.
- **Reliability:** Our implementation team and partners consistently deliver.
- **Cloud without Compromise:** On premise. On cloud. One solution. The choice is yours!

About Wolters Kluwer

Wolters Kluwer (WKL) is a global leader in professional information, software solutions, and services for the healthcare; tax and accounting; governance, risk and compliance; and legal and regulatory sectors. We help our customers make critical decisions every day by providing expert solutions that combine deep domain knowledge with technology and services. Wolters Kluwer reported 2020 annual revenues of €4.6 billion. The group serves customers in over 180 countries, maintains operations in over 40 countries, and employs approximately 19,200 people worldwide. The company is headquartered in Alphen aan den Rijn, the Netherlands. Wolters Kluwer shares are listed on Euronext Amsterdam (WKL) and are included in the AEX and Euronext 100 indices. Wolters Kluwer has a sponsored Level 1 American Depositary Receipt (ADR) program. The ADRs are traded on the over-the-counter market in the U.S. (WTKWY).

Datasheet

Key capabilities for automotive

- **Bill of Materials and MRP II:** Bill of materials explosion and related MRP logic to support a profit and cash flow based sales and operations planning process. No custom coding or integration needed.
- **Top Down or Bottom Up:** Create plans your way based on unique business drivers, products, divisions or LoBs. Choose from a library of industry specific drivers and templates..
- **Built-in Financial Intelligence:** Improve insights with double-entry logic, currency translation, management, legal and regulatory roll-ups, unlimited multi-currency and interest support.
- **Modelling and What-if Analysis:** Project future plans and play out what-if scenarios - like product launches or acquisitions - to see impacts on the P&L, cash flow or balance sheet.
- **Scenarios, Snapshots & Versions:** Easily create snapshots to compare multiple scenarios and adjust drivers and assumptions to determine the best business outcome.
- **Drill Down into Details:** Set materiality thresholds and drilldown into variances in real-time, even down to the transaction level.
- **Allocation Engine:** See driver-based and waterfall allocations across multiple levels. Assign indirect, direct and activity based costs while using financial, statistical, historical or custom drivers.
- **Cash Flow Planning & Forecasting:** Built-in functionality allows you to monitor the cash-in/cash-out and the impact on financial and Sales & Operating plans (S&OP).
- **Rolling Forecasts:** Quickly build periodic (including 13 month or 53 week) and rolling forecasts that combine data from plans, budgets and actuals automatically to quickly respond to market conditions as they emerge.
- **Long Range Planning:** Develop long-term, top-down corporate strategies - that include large expenditures, capital investments or acquisitions - to set targets that drive short-term, bottom-up tactical budgets.
- **Advanced Hierarchy Management:** Create unlimited hierarchies and rollups, for any timeframe. Adjust charts of accounts, modify business rules, and update hierarchies without IT intervention

Key features

- **All Types of Planning:** Balance Sheet, Capital, Expense (CAPEX/OPEX/etc), HR & Workforce, Integrated Business, Production & Capacity, Profitability, Sales & Operational (S&OP), Strategic, Cash Flow Planning & Allocations
- **Self-Service Reporting & Analytics:** Produce reports, visual analytics and dashboards without IT. Complete complex calculations, reports and dynamically pivot data for analysis without delay.
- **Microsoft Office Integration:** Intuitive user interface with native Excel, Word, and PowerPoint for ease of use and adoption across the enterprise.
- **Audit Trail & Workflow:** Capture detailed audit logs of all changes, by who and when. Collaborate across the organization with task lists, status and approval process.
- **Integration:** CCH Tagetik has pre-built integration and built-in ETL to fit seamlessly into an existing Microsoft, SAP or mixed technology environment.
- **Unified CPM:** Create an agile planning process that unifies budgeting, modeling, forecasting, consolidation and financial reporting within a single corporate performance management solution.
