## Datasheet

### Get the trusted cloud solution and save costs

Today, cloud adoption has moved from bleeding edge to the prevailing choice. As the proliferation of systems grows, cloud is ideal for the unification of data across disparate enterprise platforms. Connectivity between on-prem and cloud and cloud-to-cloud has matured and is now standard for connecting all internal and external systems. Persistence of flexible work environments continues to drive the need for cloud connectivity, so talent can work from anywhere. And lastly, cloud offers superior data security and certifications including data privacy and data jurisdiction.

CCH Tagetik robust corporate performance management software provides the solutions you need on the cloud: financial and operational budgeting and planning, financial consolidation and close, disclosure management & analytics reporting, ESG and regulatory reporting, and corporate tax. All of that in an open and extensible platform solution, on the cloud.

### CCH Tagetik on Cloud
