

## Evaluate profitability by loan or by the entire client relationship through a consistent pricing framework.

With increased competition in the marketplace, the ability to adjust loan pricing (i.e. rates and fees), yet stay within ROE and ROA targets is an important aspect of your long-term profitability. You need a cost-effective and flexible solution that facilitates loan pricing that is both attractive to borrowers and profitable for the institution.

CASH Profit helps price loans profitably by easily determining ROE and ROA of a loan. You can include existing relationship factors such as other accounts, risk-based discounts, and cost of fund factors such as brokerage fees and compensation. With CASH Profit, loans are consistently priced to achieve target profitability from deal to deal and from lender to lender.

CASH Profit is part of CASH Suite™, a powerful commercial lending software solution that helps business lenders increase profits and grow top line revenue by achieving straight-through processing across every step of the commercial loan lifecycle. CASH Suite drives increased efficiencies and greater accuracy while reducing operational risk and enhancing profitability.

- Pricing designed to meet return on asset/ equity goals
- · Capability to tailor loans based on business goals and lending objectives
- Evaluation at both the transaction and relationship levels
