

Reimagine Magnet® Designation with Ovid® Synthesis

Ovid® Synthesis is the only evidence-based workflow platform built to accelerate nursing excellence and support ANCC Magnet® designation. From project initiation to dissemination, it supports nurse-led improvement initiatives with tools that streamline EBP process and documentation, visualize impact through ROI, and align with Magnet standards.

Why Magnet Organizations Choose Ovid Synthesis

✓ Built for Magnet Recognition

- Map projects directly to Magnet domains
- Export the OO11 Magnet Research Table in one click
- Track and manage Magnet stories across units and years

✓ Supports NK1 Infrastructure

- Centralized repository for EBP, research, and residency projects
- Standardized documentation and built-in evidence appraisal
- Real-time dashboards for leadership visibility

✓ Demonstrates ROI of Nurse-Led Improvement

- Visualize project outcomes with built-in charts and graphs
- Configure dashboards by Magnet domain, HACs, or department
- Quantify impact to secure funding and drive strategic goals

What Magnet leaders are saying

*"With Ovid Synthesis, we not only have the repository of all EBP projects, but also the references in the right format. **It will save a lot of time writing our next Magnet document.**"*

– Erica Prough, Director of Education & Professional Practice

Demonstrate ROI of Nurse-Led EBP & Simplify Your Magnet Journey

Streamline processes

- ① **System-wide tracking.** Facilitates tracking across your organization, saving precious time and enhancing implementation
- ① **Magnet component documentation.** Streamlines documentation of Magnet components 1-5, reducing administrative burdens
- ① **Story management.** Supports building and managing evidence-based projects and Magnet stories, producing documents ready for dissemination

Enhance collaboration

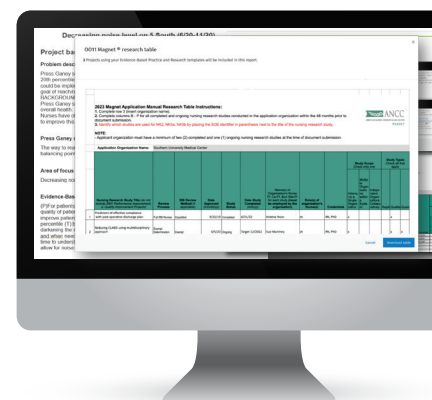

- ① **Real-time visibility.** Dashboards and interactive functionalities boost collaboration across departments.
- ① **Centralized portal.** Offers a centralized hub for unit-based initiatives and large-scale evidence-based projects.

Data-driven improvement

- ① **Visualize by Domain.** Empower leadership to track progress toward excellence by configuring dashboards around Magnet domains, HACs, or departments — highlighting how nurse-led initiatives drive organizational outcomes.
- ① **User-friendly data analytics.** Access to real-time data analytics aids continuous quality improvement initiatives.

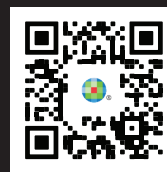

Magnet alignment and readiness

- ① **Customizable workflow.** Tailored for Magnet designation and continuous improvement initiatives
- ① **Collaborative environment.** Enables viewing, storing, and searching system-wide research, managing evidence and IRB documentation for survey readiness and compliance
- ① **Turn-key export.** Easily export the 0011 Magnet Research Table Report, saving countless manual hours.
