# Reimagining nursing excellence with Ovid® Synthesis

Unmatched benefits

The evidence-based workflow solution, Ovid Synthesis, is engineered to streamline nursing processes, provide actionable data insights, and aligns with requirements to be recognized in nursing excellence.

Aligns with 2023 guidelines

✓ **Sustain a culture of improvement.** Foster a healthy culture of improvement throughout your organization

✓ **NK1 nursing research infrastructure.** Support your institution with robust research capabilities within one easy-to-use solution

✓ **Project/story repository.** Store and find projects by domain, hospital, year, and topic, empowering leadership

✓ **Team support alignment.** Support all teams including residency, EBP, research, and track clinical ladder projects for professional development

✓ **ROI calculation.** Measure return on investment of improvement projects projects to underscore the impact of implementation to leadership to secure more funding

✓ **Reduce clerical strain.** Alleviate clerical tasks for nurse educators, Clinical Nurse Specialists, and APRNs to reduce burnout and cultivate a spirit of inquiry.

✓ **Survey readiness.** Automatically export PPTs, posters, and Word documents with APA citations, standardizing dissemination and allowing staff to focus on improving outcomes.

First of its kind EBP nursing solution and project repository

Streamlining processes

- ❯ **Systemwide tracking.** Facilitates tracking across your organization, saving precious time and enhancing implementation
- ❯ **Story management.** Supports building and managing evidence-based projects and Magnet stories, producing documents ready for dissemination.

Enhancing collaboration

- ❯ **Real-time visibility.** Dashboards and interactive functionalities boost collaboration across departments
- ❯ **Centralized portal.** Offers a centralized hub for unit-based initiatives and large-scale evidence-based projects

Data-driven improvement

- ❯ **Standardized documentation.** Ensures quality through built-in evidence appraisal methodologies
- ❯ **User-friendly data analytics.** Access to real-time data analytics aids continuous improvement initiatives.

Survey readiness and compliance

- ❯ **Customizable workflow.** Tailored for EBP workflows and continuous improvement initiatives
- ❯ **Collaborative environment.** Enables viewing, storing, and searching system-wide research, managing evidence and IRB documentation for survey readiness and compliance
- ❯ **Turn-key export.** Easily export the OO11 Magnet Research Table Report, saving countless manual hours.
