

Ovid[®] Synthesis

Nursing research infrastructure for Pathway to Excellence[®] and Magnet[®] designation

For nursing leadership and Magnet coordinators and administrators who strive to achieve superior patient care and Magnet designation, Ovid Synthesis is an evidence-based workflow solution that streamlines processes, fosters collaboration, and provides actionable data insights, ensuring compliance with Magnet standards and improving overall nursing practices.

The challenge

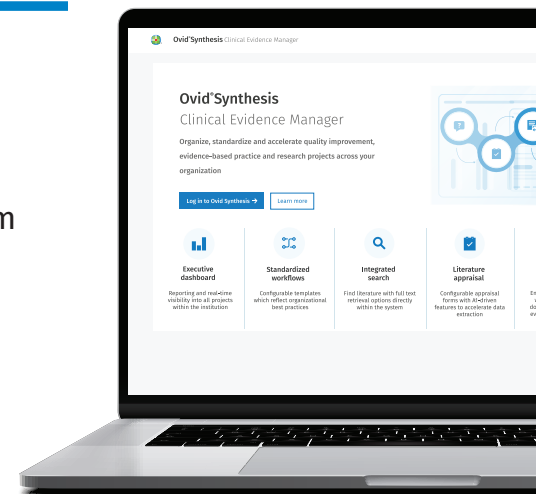

- ⊗ Inconsistent documentation and administrative tasks detracting from patient care focus
- ⊗ Inadequate collaboration and communication to meet Magnet standards effectively
- ⊗ Lack of real-time analytics and reporting for informed decision-making in nursing practices
- ⊗ Difficulty aligning with Magnet criteria due to homegrown or inflexible systems

The solution

Ovid Synthesis addresses these challenges by delivering a nursing infrastructure as a comprehensive, customizable, and intuitive system equipped with:

- ✓ **Real-time visibility**
- ✓ **Administrative dashboards**
- ✓ **Interactive functionality**
- ✓ **Assistance with Pathway to Excellence and Magnet designation**

How we can help

Streamlining processes

- Facilitates systemwide tracking, saving precious time and enhancing implementation
- Streamlines Magnet component 1-5 documentation and reduces time spent on administrative tasks
- Supports building the stories and manages projects that integrate evidence
- Produce documents for dissemination, including the OO11 Report.

Enhancing collaboration

- Real-time visibility and dashboards improve collaborative efforts across departments.
- Interactive functionalities boost team and interdepartmental communication.
- Offers a centralized portal for unit-based initiatives and large-scale evidence-based projects

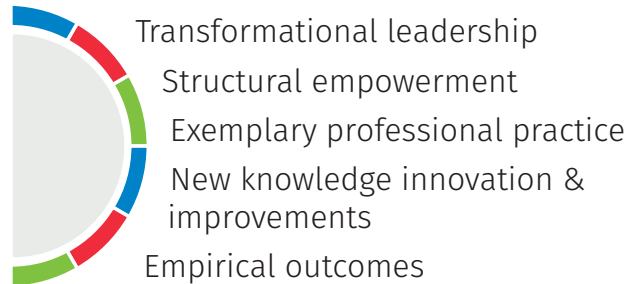

Data-driven improvement

- Provides essential standardization of Magnet stories, reducing the chance of errors in documentation
- Built-in evidence appraisal methodologies ensure quality and compliance.
- Access to real-time data analytics aids in continuous quality improvement initiatives.

Magnet alignment and readiness

- Customizable infrastructure for Magnet designation and continuous improvement initiatives
- View, collaborate, store, and search system-wide research.
- Manage evidence, IRB documentation, and projects for survey readiness and compliance.
- Turnkey export of the OO11 Magnet Research Table Report, saving staff and leadership countless manual hours

Meet the 5 Magnet model components

How we stand out from the competition:

Investing in a workflow solution that directly mirrors the requirements of the Magnet program — providing step-by-step support, streamlining the process of carrying out research to support EBP and QI initiatives, and simplifying the process of disseminating the findings — is a critical step in supporting efforts to achieve this valuable designation.

“It will facilitate systemwide tracking which will save people time, so that they can focus on implementation. Tracking will provide the opportunity to see what others are doing.”

– Director of Research and Innovation
