

LWW Clinical Consult Collection

11 Top Tier Titles available only on Ovid®

- Premium full-text journal content exclusive to Ovid covering Anesthesia, Critical Care and Pharmacology in adult medicine and pediatrics
- Find articles quickly with Ovid's powerful journal browse and search functionality, as well as flexible, time-saving results management and refinement tools
- Keep up with the latest research with automatic delivery of electronic tables of contents via email or RSS feed
- Use natural language processing to generate relevance-ranked results
- Add to the institutional content searchable on OvidMD to deliver latest information to your physicians

The LWW Clinical Consult Collection offers exclusive content only available through Ovid. These journals represent top-tier titles that consistently appear in literature searches, providing you with access to premium-quality, clinically-relevant articles that combine adult and pediatric coverage of critical care medicine.

Journals may be purchased individually or as a cost-effective collection.

Anesthesia & Analgesia

Impact Factor: 3.472, 5/30 (Anesthesiology)*

No other journal can match *Anesthesia & Analgesia* for its original and significant contributions to the anesthesiology field. Each monthly issue features peer-reviewed articles on the latest advances in drugs, preoperative preparation, patient monitoring, pain management, pathophysiology, and many other timely topics.

Anesthesia & Analgesia Case Reports

A&A Case Reports is a clinical companion journal to the International Anesthesia Research Society's flagship publication, *Anesthesia & Analgesia*.

Anesthesiology

Impact Factor: 5.879, 1/30 (Anesthesiology)*

Physicians worldwide look to *Anesthesiology* for original investigations in perioperative, critical care, and pain medicine as well as special articles, editorials, reviews, correspondence, and book reviews.

Clinical Journal of Pain

Impact Factor: 2.527, 11/30 (Anesthesiology), 79/192 (Clinical Neurology)*

This peer-reviewed journal presents timely and thought-provoking articles on clinical dilemmas in pain management; valuable diagnostic procedures; promising new pharmacological, surgical, and other therapeutic modalities; psychosocial dimensions of pain; and ethical issues of concern to all medical professionals.

Clinical Neuropharmacology

Impact Factor: 2.009, 116/192 (Clinical Neurology), 148/254 (Pharmacology & Pharmacy)*

Coverage in the journal ranges from such basic aspects as mechanisms of action, structure-activity relationships, and drug metabolism and pharmacokinetics, to practical clinical problems such as drug interactions, drug toxicity, and therapy for specific syndromes and symptoms.

Critical Care Medicine

Impact Factor: 6.312, 4/27 (Critical Care Medicine)*

A single source for multidisciplinary coverage of all aspects of acute and emergency care, Critical Care Medicine provides quick access to the latest news about advances in equipment as well as diagnostic and therapeutic techniques.

Journal of Clinical Psychopharmacology

Impact Factor: 3.243, 69/254 (Pharmacology & Pharmacy), 46/140 (Psychiatry)*

The journal keeps clinician-scientists and trainees up-to-date on the latest clinical developments in psychopharmacologic agents, presenting the extensive coverage needed to keep up with every development in this fast-growing field.

Journal of Occupational & Environmental Medicine

Impact Factor: 1.630, 85/162 (Public, Environmental & Occupational Health)*

This journal is an indispensable guide to good health in the workplace. In-depth, clinically oriented research articles and technical reports keep occupational and environmental medicine physicians up-to-date on new medical developments in the prevention, diagnosis, and rehabilitation of environmentally-induced conditions and work-related injuries and illnesses.

Pediatric Critical Care Medicine

Impact Factor: 2.338, 14/27 (Critical Care Medicine), 28/119 (Pediatrics)*

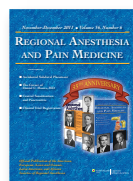

International in scope, this journal is written for the entire critical care team: pediatricians, neonatologists, respiratory therapists, nurses, and others who deal with pediatric patients who are critically ill or injured.

Pediatric Infectious Disease Journal

Impact Factor: 2.723, 75/148 (Immunology), 34/78 (Infectious Diseases), 19/119 (Pediatrics)*

Through a mix of original studies, informative review articles, unique case reports, and "Yellow Pages" of late-breaking news, PIDJ delivers the latest insights on combating disease in children — from state-of-the-art diagnostic techniques to the most effective drug therapies and other treatment protocols.

Regional Anesthesia and Pain Medicine

Impact Factor: 3.089, 7/30 (Anesthesiology)*

This journal publishes original articles, clinical reports, review articles and correspondence relevant to the practitioner concerned with local anesthetics, regional anesthesia, and pain management.
