

American Association for the Study of Liver Diseases on Ovid®

Timely access to authoritative research and evidence-based clinical practices is essential for advancing disease management and prevention.

The four journals published by the American Association for the Study of Liver Diseases (AASLD), available on the Ovid® platform, provide clinicians, educators, students, and researchers with a continuous flow of peer-reviewed articles, comprehensive literature reviews, and relevant topical content to support their work and drive innovation in liver disease care.

Why Choose AASLD titles on Ovid?

- Instantly expand your portfolio with four respected journals, including *HEPATOLOGY* — a premier publication featuring peer-reviewed research on liver structure, function, and disease.
- Gain easy access to primary research, clinical guidelines, and literature reviews.
- Meet the clinical practice, educational, and research needs of anyone involved with preventing and curing liver disease, including physicians, advanced practice nurses, residents, fellows, and students.
- Content spans a wide range of topics and issues that address liver disease and prevention, including liver structure and function, chronic disease, immunology, hepatitis, cirrhosis, liver cancer, drug metabolism, transplantation outcomes, surgical techniques, and more.
- Stay current with articles published ahead of print, ensuring timely access to the latest research findings, procedures, and theoretical developments in the field.
- Access precise, natural-language searching for quick information discovery — whether you're a novice or more advanced searcher.

Enjoy the benefits of the Ovid® platform:

- Take advantage of a variety of search modes — including natural language — and customizable features, functionality, and tools.
- Search simultaneously across all your Ovid fulltext, bibliographic, Open-Access, and multimedia content using just a single query.
- Organize and manage all Ovid and non-Ovid research in a dedicated work area.
- Stay up to date on current and upcoming theories, developments, and techniques with AutoAlerts and RSS feeds.
- Use search filters for fine-tuning and refining searches.
- Access award-winning, 24/7 consultative support services in 20+ languages.

What's included

HEPATOLOGY

Impact Factor: 16.8*

Ranked #7 of 148 in Gastroenterology & Hepatology

Since 1981, the world's premier publication focusing on liver disease has published timely, original, peer-reviewed articles related to liver structure, function, and disease.

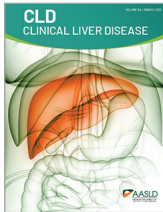

Liver Transplantation

Impact Factor: 4.2*

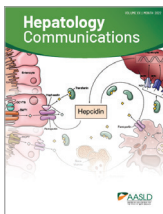

Ranked #7 of 31 in Transplantation

Surgeons, hepatologists, intensivists, immunologists, and pathologists will gain much from current, peer-reviewed articles on transplantation, chronic disease, and surgery, with emphasis on liver failure, waitlist outcomes, and other key topics.

Clinical Liver Disease

Published from 2012-2024 and geared to physicians, advanced practice nurses, residents, fellows, and students, this journal focused on a variety of topics to advance the study and practice of managing liver disease.

Hepatology Communications

Impact Factor: 4.6*

Launched in 2017, this open-access publication offers peer-reviewed, high-quality basic, translational, and clinical research in hepatology.

About the American Association for the Study of Liver Diseases

AASLD is the leading organization of scientists and healthcare professionals dedicated to the prevention and cure of liver disease. Through the advancement and dissemination of hepatology science and practice, AASLD supports its mission by:

- Driving research that leads to improved treatments for millions affected by liver disease
- Hosting educational conferences, training programs, and publishing influential content
- Partnering with government agencies and professional societies
- Fostering mentorship, collaboration, and professional development among its members
